Thread: [Join HF's #1 Crew - B0SS Crew](#)

Xerotic - January 26, 2020, 3:50 pm

Do you want to join [HF's #1 crew](#)?

Do you want HF's coolest userbar and for everyone to know that you are a B0SS?

Then look no further because the B0SS Crew is the OG crew of HackForums.

To join is quite simple. You need to post an average of 5 interesting threads per week, with content. Talk about something new. Something interesting. Maybe link an article and talk about a development in science, music, or cinema. Maybe write a short demonstration on a technical or artistic topic. Here is an example thread of mine to use as a guide: [Living Robots Built Using Frog Cells](#)

As seen in my example, the supplied thread isn't overly long or complex but it does bring interesting discussion to the forum. It's a topic I care about and I'd like to see what other people think too.

On top of that you should make sure to participate in other B0SS Crew member thread discussions. If you see that another B0SS Crew member has made a thread on HF then you should check it out and keep the conversation going. You might learn something or you might have something to teach. If not you might just have a good conversation.

So do you still want to join the B0SS Crew and be a top member? Follow the instructions below:

Create your first thread for your weekly minimum.

Post here with that thread link. I will quote your post, provide feedback on your thread, and let you know if you are approved or denied.

Remember... anyone can join. I have no limitations although I do reserve the right to refuse B0SS access to any member.

Thank you and I look forward to the new crew members!

If you have any questions, comments, or concerns then feel free to post them below.

Very interesting, I am interesting in joining, but that thread requirements is quite harsh. I only make threads if I feel like they provide value. Other than that. Would you sell your crew?

vyactor - January 26, 2020, 5:53 pm

I'll definitely make a move to get into the crew. Thank you for giving us opportunity to join the crew.

Mix - January 26, 2020, 7:24 pm

Nice way to spice up your crew member numbers, Glad to see it's going for a very HQ way forward.

Nuworld - January 26, 2020, 7:33 pm

Umm? seeing how I'm already a Crew "Boss"

To bad we can only be in one crew at a time.

I would love to be apart of this.

Nate - January 26, 2020, 11:02 pm

Your gonna kill me to make 5 threads a week, I can try but my lust for HF is slowly dying

Natas - January 26, 2020, 11:08 pm

Most HQ crew on this forum and it helps support the most HQ member.

Also any one who is apart of the B0SS crew I will help you level up fast with the terminal on the HF game.

No one knows how to use it and I will only show it to B0SS crew members

Zero - January 27, 2020, 2:28 am

Seems like the requirement will make sure this crew stays HQ.

Good luck filling the spots and good luck to everyone who tries to join!

I am always looking, reading and watching interesting stuff on youtube or on any website, so it's a very good opportunity to share interesting stuff with HF community and have a chance to be a part of the 'BOSS' crew!

So this is the first thread which I hope will be accepted!

Welcome to BOSS Crew. I'll keep track of your threads. Remember, they aren't restricted to any one section. Try your best to keep track of other BOSS Crew members and participate in their discussions as well. I will keep a list of recruited members in the OP of this thread (at the bottom):

<https://hackforums.net/showthread.php?tid=6044304&pid=59365886#pid59365886>

You can view Crew controls on this page: <https://hackforums.net/gamecp.php?action=crewprofile>

To access that yourself, click on the game icon (from any HF page) and choose "Hack Game". Then simply click on the icon to the left of the battery icon. There will be a few pages of crew controls.

Mr. xErotic! This is my official application to the B0SS Crew! (you better add me or im gonna be

I don't post threads too often but when I do I wanna make them very HQ. Here's a recent example:
<https://hackforums.net/showthread.php?tid=6067240>

My threads steer more towards entertaining than informative but like the one above I do post the educational ones from time to time. Aside from threads I would also say that my replies are also HQ, I always try to stick to good grammar and making my replies short and sweet.

Please add me, I'm already being bullied enough for not being a vendor.
