i'm not sales trashing but what exactly can you bring to the table that other ebooks dont? most ewhoring ebooks are the same here, is there any real new "info" or is it just the same as most others reworded?

Honestly, I haven't bought anyone else's ebook so I can't comment on that, I bought one when I first started but that was long ago, and this is a completely different approach.

I believe this is more aimed at beginners, however, I added a couple of twists such as a list of actual returning buyers of mine.

(Feb 3, 2020 02:45 PM)Yin Yang Wrote: [\[CITE\]](#) Here is my unbiased and honest review of FiePace's eWhore Guide. As always, any deals on HF are at your own risk and I will not be held accountable or liable if something happens.

Grammar: 10/10

There are no grammatical errors that I caught while reading this method.

Content: 8/10

This ebook contains an in depth and unique method that you can use to get your initial investment of purchasing the method back, and then eventually profit. The ebook is very informative and detailed with instructions and various means of gaining traffic. Also has a method to making the process automated!

There's also a zip that contains some packs that can be used.

Only recommendation is to include pictures and visualizations. E.g., sample profiles that could be used.

Originality: 8/10

Having been on HF for over 8 years, this method, I admit, I have seen before. However, what's makes this one different is that it's got a twist and an approach that involves new methods to gain much more traffic- in which, would lead to more income.

Layout: 9/10

The method is written in google docs and has some organization with page breakers of part 1., 2., etc, and has a ToC. Also has a log so you know if it's up to date.

I would also include a ToS of some sort that no one can leak without your expressed or written consent.

Overall: 9/10

This guide was really nice to read. You will earn money if you are willing to put in the work for it and you should be making \$ in no time! You can make some serious cash if it's done properly.

I would highly recommend buying this guide while it's at a discounted price; it's a steal at \$40. FiePace has also stated he'll be updating the guide frequently too.

I've never eWhored before, mainly because I've never been desperate enough, but I'll try this soon and post my results!

Thank you for the detailed and honest review mate :)

This is my second review about this book.

I am totally newbie for ewhoring thing. Yesterday i tried a method from the ebook and i get lots of adds. If my sc didnt locked, probably ll get 200+ adds.

And if you read the book, u ll see u dont need investment.

Like i said, i am a newbie and when i learn the bussiness, i ll probably earn \$100+ a day

Here is my review of FiePaces ewhore pack.

FP responds quick, i got my package 5 minutes after I paid. He answered all my questions and I had a lot.

The content. For the price the ebook is good. It has unique methods I didnt see in the free books circulating and they generate higher quality leads. The girls. Packages he has are sufficient.

THE REAL HIDDEN GEM is the CONCIERGE level service. You get 1on1 mentoring. The dude got my money he could ignore me now but he didnt. He has a discord server setup with other clients who discuss methods that work, don't work etc. This is what sets the package apart.

Anyone can. Buy groceries from the store but FP delivers them to your house posing as a very hot brunette with a premium snap she wants to sell you.

I am fresh out of jail. No laptop. I had 55 bucks to my name. I took a big risk dropping 40 on FP. I made 75 my first 2 hours abd i half assed it. I followed 1 of the 10 things youre suppose to do.

I highly recommend it, see you in the server hopefully

Here is my full unbiased and honest review of FiePace's EW Elite method:

OP's eBook was very easy to read, had no grammatical errors and was straight forward. In the 39 page file, he provides everything you'd need from start to finish and more. There is 13 chapters overall filled with different platforms to advertise on, multiple traffic methods, how to set up your social media accounts, various payment methods and how to prevent from being limited on them and even how to autopilot everything once you get going. There are some saturated methods and unsaturated methods in here that I haven't seen before so it's well worth the read. As with any e-whoring method, or money making in general, if you don't put the time in, you won't make money so put forth your time elsewhere unless you're sure you have the mental aptitude. All in all, OP's book is well worth the price along with the packs you'll get that'll be regularly updated and continual support from OP himself.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
