Thread: [Shadow Banned Steam Accounts with 20.000\\$ and more CSGO Skins](#)

skins2come - January 28, 2020, 8:05 am

Title says it basicly.

Here are some skins of the 13k (smallest) account

<https://i.epvpimg.com/hF6cbab.png>

Account has a lot of knives, 4 dlores fn, case hardened stuff, etc. etc.

Here are some other Accounts (every single account has over 20k value in skins) :

<http://i.epvpimg.com/0cjqcab.jpg>

<http://i.epvpimg.com/cS13fab.jpg>

<http://i.epvpimg.com/lv7Cdab.jpg>

<http://i.epvpimg.com/6bnpgab.jpg>

<http://i.epvpimg.com/mnDfaab.jpg>

I have arround 20 of such accounts, each of them has more then 20k\$ on them.

I do not have smaller Accounts.

All Accounts are shadow banned, means it has no official signs of a ban but you can't trade. You can play csgo without any issues but you can't send any skins.

Many of them have a lot of keys, case hardened skins, some of them with high level kato 2014 sticker etc. pp

I can proof every ownership and I have the all original emails. I also am able to trade with a verified middleman etc.

Offer me

I'll give you \$5 PayPal lol.

But seriously gl with sales

Smexy - January 28, 2020, 4:08 pm

Trade ban is no shadowban, it's irreversable.

Thanks bro. Is a trade ban even irreversable in any way other then waiting 10 years?

Anyways, I've never said anything against that so all accounts are shadow banned, meaning they will never be able to trade again.

As I wrote in the OP, all accounts are basically just to flex ingame. Nothing else. I wouldn't sell them otherwise.

Waiting 10 years refreshes the ban, you can only take valve employee hostage, and demand the account to be unbanned.

which wouldn't succeed anyway.

I was talking about a normal trade banned user, not a shadow banned user. As mentioned above:

All those shadow banned accounts will probably not get unbanned at any given time in the future

rexkless3k - January 29, 2020, 7:23 am

\$50 BTC on 13k one is my offer

Angel - January 29, 2020, 3:23 pm

rexkless3k - January 29, 2020, 4:13 pm

vad0x - January 29, 2020, 4:25 pm

man thats such a RIP for all these skins. Will never be in rotation again, pretty much a skin graveyard lmao

aloofarrogant - January 30, 2020, 2:20 am

How can one sure that these account won't retrieve by seller?

skins2come - January 30, 2020, 2:52 am

You will get the original email. There is only digital games directly bought from steam shop, no cd key was used. You can't get those accounts back.

I also have more than 20 of these, meaning I won't put any effort into getting those back because all those skins are banned anyways.

I also have 1 account with 20 sites full of dlores banned so I honestly dont care about those.

OP has acted extremely shady and childish on similar sale threads on the forums Elitevppers, and HighMinded.

Several times on HighMinded he was asked to provide proof that he was in possession of these accounts, and none of the times he provided that proof.

Not saying that OP is a scammer, just a warning to potential buyers.

I think OP should reply to these accusations.

he can't "Due to policy violations this member has Limited Access"

well, that's what happens when you don't sell for the best offers you get.

skins2come - February 3, 2020, 2:17 am

I'll need to wait for my homie to provide me all 2fa phrases so I can access all accounts. Since this is a 2 man operation and all money will need to be splitted by 2 I always have to get a confirmation of my homie to make a deal here.

We'll see some reviews of people who bought accounts here soon :)

Waiting to see those reviews, I notice you don't quote the member you reply to just FYI better to quote.

User - February 3, 2020, 1:10 pm

I'm interested, though wouldn't be paying more than 100 most likely.

skins2come - February 11, 2020, 10:36 am

Still selling those accounts, let me know if you are interested

I already sold 2 accounts, someone vouched yesterday in this thread but some mod/admin deleted the vouch of 1 of them and blocked his account.... the second buyer is currently getting rank 2 to play competitive to be sure the accounts work in competitive, after that he will vouch aswell.

Every account also comes with prime.

One thing: You can't remove the 2fa... We tried that but since the account is blocked (basically banned by gaben himself) you can't do anything besides of playing with your friends (you can change password and email)

Because of that you will get the original 2fa and you can import that into steam desktop authenticator. You'll also get the shared_secret, identity_secret and R code for removing the 2fa (even if it doesnt work)

Elastic - February 12, 2020, 5:21 am

Vouch for my man!

Bought an account from him.

Everything went smooth and he was very patient . He helped me set everything up.

The only thing is that 2fa authentication cannot be removed as he mentioned in his reply but he already found a fix for it ;)

Recommended!
