Thread: [Curse of Aros Teleport Exploit+](#)

Atomsk329 - January 29, 2020, 8:10 pm

Curse of Aros is A cross-platform mobile MMORPG with a lovely 2D art style, a diverse world, and exciting activities!

While playing around I discovered you can manipulate the value for interfaces/doors/bank from anywhere

I am not very good at writing guides so bear with me.

Images were made but cannot be used yet.

Needed:

- Cheat Engine 7.0+
- Nox Android Emulator

First open Nox player and launch Curse of Aros

Open CheatEngine / Edit / Settings

In Setting go to Scan Settings and make sure the MEM_Image (second checkbox from the bottom)

Go to Extra and Select the Read/Write option then press Ok (middle option)

Select process / Processes / NoxVMHandle.exe

Log into the game and go stand directly south of the gravestone (only one ingame with War Bat)

Do a New scan for exact value 898 (4 bytes)

Now move your character a little east and stand directly next to a tree so the chop option appears.

Now scan for Exact value 157 and you will be left with a single address .

You can now go around and collect ID's from everything interactable like Smithy/bank/merchant/cave entrance/boss rooms.

You can now access your bank from anywhere. Even a mining spot.

Make sure to freeze the value then change it to what you want to interact with. 61 or 62 for spawn bank for example.

You can easily set two hotkeys one to freeze and another to set the value.

Note that when putting a door ID you will be teleported to that area.

You will still have level requirements but ways to bypass this and have a level 1 in verax is to use cyclopes door id

Another note you will have to walk up to a tree or door or activate before pressing e or use

Endless possibilities. enjoy

The instructions are pretty straight forward to me.

*and thanks for sharing OP

Awesome gonna give this a try! Thanks for posting!

akke92 - February 12, 2020, 10:20 am

Lol just got recommended this game and now i stumble upon this.

Thanks for sharing OP, will try it out!

LOLMAN - February 12, 2020, 12:26 pm

Thanks for sharing will def try it out!

Engrais - February 13, 2020, 5:39 am

Has anyone tested if this exploit actually worked ?

Manks - February 13, 2020, 5:53 am

Very cool little exploit! The owner of the game is so fucking slow with updates, who gives a shit about cheating in it.

Engrais - February 13, 2020, 8:12 am

Exploit is working fine, thanks OP. Any ideas how to use it the more efficiently to earn money ?

akke92 - February 19, 2020, 12:25 pm

Yea i'm interested in how this can be used for profit aswell.

Have you found any ways to use it efficiently?

donciukas14 - March 1, 2020, 4:36 am

It was fixed with today's update. Anyone else knows any exploit?

Healkill - March 2, 2020, 6:19 am

Can confirm was hotfixed

Unfortunately

reconcip01 - March 12, 2020, 12:23 am

any way to use this agian?

Oktay - *March 16, 2020, 12:50 pm*

Fixed Please new Hack.. :(
???
