I'm still pretty new to HF myself. I'd love to build some rep by reviewing a vouch copy.

I'm willing to take a vouch copy and I will make sure to leave a genuine review on the thread.

Also, Updating your original thread with a few more details would just be awesome.

I received a vouch copy and here is my review:

This is not an international method. This method will probably only work in the US and Canada.

This method is definitely not autopilot either, you have to actively seek costumers.

If you're clever about this, then you'll be able to make some money off this I'm sure. And if you're in the right environment then you'll probably be able to make even more.

Now is the price worth this method?

It's not a new groundbreaking method or anything like that, but it definitely has potential to make you some money.

I would say that it's worth it, because you only need a single costumer to make the money back two- or threefold.

I would be more than happy to give you a VC, if you can please shoot me a PM with your discord username, I realized that I needed to add more info to the thread but its been more than 24 hours, so I am waiting on my first sale to upgrade HF account and create a thread design, nonetheless the method works best in Canada and USA although it can be also used Europe, the method is a "greyhat" method that is not autopilot, you can expect to make about 120 a day if your lucky and you can make your money back in matter of 15 minutes. This method will not make huge sums of money but its consistent and dooble!

Received a vouch copy as well. The method will work, takes a bit of time to find offers, but it could easily make some money. It is GREYHAT, but overall you can make some money here. Haven't seen a method like this on HF yet

I received a vouch copy of this method, here is my honest review, the method it self is very unique, have not seen such a method on HF so far, its very creative and very original. The method requires you to seek customers out without using a website or facebook ads and such, and am pretty confident you can make your money back with 1 or 2 customers.

It as the potential of making you steady payment daily, but you have to work for it and again this is not auto pilot, Thanks for letting me review this method you have my VOUCH.
