I'm going to be honest with you, most ebooks are bullsh1t. If any of the "Make 2000 dollars a day" ebook methods were real, why would the seller sell them for 200 dollars? Or any money in fact.

This is why you shouldn't shop for eBooks, but instead look for someone to mentor you. This is what I try to offer nowadays since I used to sell eBooks that honestly were bad business. Now I actually help people make money and don't try to claim a get rich quick scheme.
