Thread: [solution to pof bans and \[BRAND NAME REMOVED\] shadow bans](#)

snapprem122 - February 1, 2020, 12:46 am

do you guys think using a mac adress spoofer and a proxy will help not a vpn but a actual private proxy i am just trying to figure out how do pepole run bots on these dateing apps and get passed when they ip or device ban them there needs to be a solution any ideas?

hammerman - February 1, 2020, 1:08 am

i run bots on these apps , without getting shadow ban.

I have my private method if you would like to buy.

dm me on discord julius#0166

Don't add him. Can't you see he is a new member. He is probably a scammer. So you people should open your eyes before adding anyone. Should I need to post in every thread to warn you guys? SMH
