No, its just a chance. And that chance we call karma. I don't think it exists as a "force"

I just try to be a good person at all times. Treat people how you would like to be treated.

Its all about respect.

Citoa - February 1, 2020, 12:16 pm

Nahh. Karma is a myth. I have been bad to people and I always got away with it.

rsx - February 1, 2020, 12:58 pm

Ex who cheated on me got cheated on 10x worse in a more serious relationship. I believe in it.

Geralt - February 1, 2020, 2:27 pm

Nope. I've done plenty of bad things and never got hit my karma.

People will find any excuse to believe in it.

"I hit some dude with a car."

"3 months later my friend dies, mUsT be kArmA"

Geass - February 1, 2020, 2:47 pm

I met a girl with nickname karma, but she didn't want you to be good :p

Luca - February 1, 2020, 5:19 pm

I personally don't believe in karma, bad things happen to everyone and when they do happen to a dickhead people just credit karma for it

Nate - February 2, 2020, 2:37 am

Posting again, Karma doesn't exists

Psychedelic. - February 2, 2020, 5:25 pm

Oh yes, karma has been a real bitch to me

Lorem Ipsum - February 9, 2020, 5:20 am

I do believe in it and I've seen her, multiple times.

I strongly believe that life lessons you don't learn, you will face them another time again. Repetitive mistakes are rewarded by karma, doing good will bring you good, but don't do it in the name of the reward, that's not how it works. Just my thoughts here.
