I usually just get all my work done by the same person, but I thought maybe giving someone else a shot would be worth it.

Looking for a UB, Thread header, and thread separator for an official HF group.

I am curious to see examples of your work with such small pixel canvas to work with.

Budget is \$100

I asked for examples of small UB size artwork...If I like it I will reach out and we can discuss what I want and the cost. I also gave my max budget of \$100

I'm sorry that some of us are made illiterate, and only correspond with 8th grade remarks.

I'll send you some of my latest illustrations through PM!

If you're still looking for this, send me a PM with the general concept of the design you'd like and group information and I'll give it a crack. Feel free to look through my past threads to find my sort of illustration style.
