Thread: [\[GAMBLERS SPONSORED\] UPGRADING NON-UPGRADED MEMBERS!!!](#)

Blazin - February 1, 2020, 7:24 pm

Hello, hackforums. I have been here for some time now. and It's time for me to give back to the community in my own way

???

I have decided that I want to give back to the community and it's members. I will be upgrading non-upgraded members. To enter this it will be very simple, post why should I upgrade you. Don't fabricate made up stories or things you can't show me with posts or links or solid examples of proof. EG: This user x has spent x long in this forum section helping people on his spare time with solid answers "here's a few posts" I want members who are making a positive impact on this forum or in life in general. I will manually review each person before I upgrade to make sure they qualify. Another example will be kindness. "This x user helps people with drug addiction or mental issues in vices" Rude/obnoxious people that either troll or make attempts to put others down will be auto disqualified. This is my way to spread positivity and give back to those that give. I am not sure when I will end this but I will post every member that gets upgraded so lets start this off tell me why gamblers should upgrade you? I do reserve the right to deny members also. Post below with proof and examples on why you should be upgraded you can also recommend another member.

Blazin - February 10, 2020, 2:02 pm

Interesting more people never entered in this. Ah well, I shall keep it open for another few weeks and if nobody is entered I suppose I'll change the rules and do a random roll. I really don't want to do that but meh.

Segregation - February 12, 2020, 8:22 am

I will enter in this, I am new to the forum but I hope to contribute by helping people and sharing my techniques and exlusive content.

Bellagio - February 14, 2020, 4:08 am

I would like to enter this contest I am quite new here but am already loving the community! I enjoy discussing debates and all round general discussion. I am an easy going guy and I consider myself very helpful and knowledgeable in certain areas, such as trading and program developing also very successful in social media. Please keep an eye on me as you will see my helping anyone out and

engaging in discussions, I am currently working on products to sell here on HF.

And btw this type of pink is my favorite type of pink. Gamblers is a really nice group. But I rep'd you for this thread. Good luck to everyone else!!

-Pay it forward!

OppStoppa - March 22, 2020, 1:59 am

Hey Blazin! Even though I am new I have been trying to help people and earn some side money for my family. I think me getting this upgrade will be very helpful. Thanks! Hope I get it.

Blazin - April 5, 2020, 4:31 pm

Still doing this got at least one more person to do! Keep it coming.

Aedan_ - April 5, 2020, 4:35 pm

This is a very generous offer that I decided to join in on and apply for this upgrade.

Hi, my name is Aedan, and I've been on Hack Forums for a couple of years now. I'm mainly active in the lounge and discussion sections of the forum, however I can be found on some of the other suggestions if something draws my eye. I don't offer much in terms of business to this forum, I don't have skills that are utilized on this forum. However, I love the community and love to have conversations with other individuals in the discussion section. You can view my kindness and happiness that I spread on this forum through my recent posts.

Thanks again for this opportunity, hope you pick me.

Rebornz - April 6, 2020, 1:12 am

First of all thank you for giving this opportunity Blazin!

I used to be a member of this community since 2013 but unfortunately my account got closed due to inactivity in 2019, My earlier username was Nitz0007

And here's my profile <https://hackforums.net/member.php?action=profile&uid=2086425>

I used to be active way back when I used to have that account but atm I'm just slowly picking up pace :)

As for contributions, I used to do free graphics requests, and few other thing in that account.

Once again thank you for hosting this!

gnojedkire - April 7, 2020, 2:16 pm

Santa is early this year! I love your generosity in this crazy phase of our life we all have to bare together. Anyway I m a great supporter of karma, which isn't always a bitch.. ??

9756502033875746737731550 - April 7, 2020, 2:17 pm

I wouldn't mind an upgrade for free lol. Thanks for the generous offer.

Maskin - April 7, 2020, 3:47 pm

Already upgraded but just stopping by to say hi and pat you on the shoulder for upgrading our community ?

ProfessorEevee - April 8, 2020, 9:38 am

I don't know why, but so many accounts are getting closed and I'm kind of afraid to post here. ???

Anyways, howdy! I've been a member for about 2 years. Although I wasn't really active back then, I decided to come back and I realized what a cool community I've been missing out on. I'll admit I haven't done much so far, but I am looking forward to getting more involved and sharing my journey with everyone.

Even if I don't get upgraded, I've still got a reason to try and give back to the community that's helped me grow.

Thanks for the opportunity.

BiggL - April 9, 2020, 5:17 am

Awesome giveaway man what a great guy! goodluck to everyone entering!

shitmaster - April 11, 2020, 11:28 am

Hi, my name is Weston.

Thanks for this nice thread Blazin.

I am a member who is 4 days young. Found HackForums by going through Google to learn coding. I came here and learned a lot other than coding. Some weird stuff too along with some nice people. I also realized I was somewhat into gambling when I started exploring the game section (which explains the small amount of Bytes left). This is the first forum I ever joined in the 30+ years of my life. And the first time I have ever had so much fun being dedicated to something online. Am looking forward to contribute and learn as much as I can here.

I didn't realize there was a giveaway section until today. I joined two Giveaways as of now to be upgraded to L33T. Reason I would like to be upgraded to L33T is to return what was given to me (e.g. REP+) as well as the ability to decorate my profile. I clearly understand if I am not eligible as for now. I may be too new to deserve this. At least by posting this, I'd be getting 2 Bytes to gamble.
?

Blazin - April 12, 2020, 6:44 pm

Picking the next winner very very soon, Just giving people time to post especially over these crazy corona times.

? ?I???????@ ? - April 12, 2020, 9:17 pm

I am fairly a very new member so I am not sure if I will win this upgrade or not but I will still post to not loose my any chances of winning if I am eligible. I am from field IT Security. I have done Masters in IT & Forensics and I am still learning and exploring same field. I am good with server management as well when it comes to securing the perimeter of the servers. I am not much into graphics but I can do basic Designing of logos and wallpapers. I have worked with couple of teams over the projects which were provided by clients and I have successfully completed my part which includes security audits, quality and testing of api's etc. Good Luck to everyone who applies, hopefully the best man wins. Thanks for the contest.

Exposed74 - April 13, 2020, 4:49 am

I have quite an old account (celebrating my 7 years Joinniversary today) but I wasn't really spending much time on it. I'm not yet the most useful guy on there, but I'm quite active in the lounge over a wide variety of subject, because having open debates and sharing visions is really interesting. That's also a good way of improving my writting english skills since i've been lacking it lately.

I've found out that this community is really sharing a lot, either it is by helping one another, giving away stuff because they succeeded thanks to HF, ... And i hope one day I would myself be able to do such thing !

IRL my business had to be shutdown, so I was left with not much to do. Thus i decided to volunteer to work for the hospital closeby as they need some workforce to help them through this time. I had some experience before that's why they accepted my offer, this way they can focus on the most important cases while I take care of the standard cases.

Grind a little more hq posts and content or be helpful and come back and I'll see what I can do and appreciate the appreciation gesture I try and help out who I can, I love this forum so I do what I can for things I care about and the community especially if I see your making a difference or just a really kind or helpful person. Even trying to make a difference will catch my eye. You don't need to be a hq programmer or something to get upgraded I just need to see your being kind to others and making a difference or at least trying, that's it. Programming is just one avenue another member got upgraded he was helpful in the areas he knew stuff in.

So yeah I'll be doing another member soon.

I've only wandered into these member contests just yesterday matter of fact. I didn't really realise how much was actually being offered on this forum! So I've had this account since 2012 but been ON/OFF due to just... life I guess and choosing different paths. But its funny after all this time everyone winds back to where they begun. Anyways, yeah since this whole COVID just been more active on here purchasing products and services from other members, only problem I find is being a "regular user" seem to be taken advantage of more often. Can't count how much money I've thrown down the drain trying to purchase mailers and SMTP's, all of them claiming theirs is the best yadda yadda.

Either way, win or lose I appreciate what you're doing for the community and wish you all the best with your business :)

That was really nice of him to do that for you. Yeah, sometimes all people need is help getting started even in the most tiny form like a simple account upgrade we all started as a regular nobody took a shortcut after that leet I still remember my leet account here when I had it. I'm happy to help give any good members a start on here as long as they're trying to make a difference and they are kind to each other. A simple upgrade could change a members life on here maybe get him into a business or venture or meet a group of nice people. Also just for anyone viewing, you can continue posting and I'll make a list of top candidates cause I promise at least one more.

Hello @Blazin?,

?Thanks for making this awesome giveaway!?

Also, i hope that you and your family are safe.?

And well.., as i said in one of my older threads.., im just here to expand my knowledge and help anyone who needs! I don't consider myself a "hacker" or a "black hat", since im more into the "white hat" team<3?

?Yes, i may be a little older around here but on all this year's, ive been learning?

Even if I don't win, thanks for making this for the community.?

Hello, hackforums. I have been here for some time now. and It's time for me to give back to the community in my own way

???

I have decided that I want to give back to the community and it's members. I will be upgrading non-upgraded members. To enter this it will be very simple, post why should I upgrade you. Don't

fabricate made up stories or things you can't show me with posts or links or solid examples of proof. EG: This user x has spent x long in this forum section helping people on his spare time with solid answers "here's a few posts" I want members who are making a positive impact on this forum or in life in general. I will manually review each person before I upgrade to make sure they qualify. Another example will be kindness. "This x user helps people with drug addiction or mental issues in vices" Rude/obnoxious people that either troll or make attempts to put others down will be auto disqualified. This is my way to spread positivity and give back to those that give. I am not sure when I will end this but I will post every member that gets upgraded so lets start this off tell me why gamblers should upgrade you? I do reserve the right to deny members also. Post below with proof and examples on why you should be upgraded you can also recommend another member.

UPGRADED USER 1 : [h0lyl337](#)

UPGRADED USER #2 [Exposed74](#)

UPGRADED USER #3 [?????????](#)

I warmly welcome?

I would like you to update my account, I am a new user of this forum and I would like to say that I already have my contribution to this community but I am afraid I have no right to say it yet. From the beginning when I am here I write guides for less experienced users on the subject of wifi network security. In addition, I try to give hand in many sections of this forum, helping others in their everyday problems. I met many positive people here, who helped me and treated with kindness a new member of the community (I would like to thank here people such as: [CyberStrike](#) @shitmaster@ @lowlife@ @IPIKIN@ @Xerotic@ you are great and I apologize in advance if I missed someone?) I try to repay people with the same the goodness I got here. If you can, then improve my account, if not then I can hardly believe that if I don't get it then the person who fully deserves it.

Best wishes and much health?

Thanks for this. Good luck to the winner whomever it may be. I'd like to participate too! I would like to be upgraded because I have a lot of stuff to contribute to this community. It's been a while since I've been here, I don't talk much but I'm planning on changing that. I was before a "HF Lurker". I'm experienced with the rules and have broken quite a few over the years, But I learned over time what was right and what was wrong to do. Looking forward to utilizing the Marketplace section soon. Along with some Penetration testing content. Thank you.

Let me start by emphasizing I cannot believe that this forum is this kind; or more so that members are this well put. I was just looking through the member contest section for upgrade options. Although my knowledge is very diverse as a software developer, during these times it is too much for someone like myself to pursue an upgrade.

With that in mind, I would be truly honored to receive an upgrade for the following reasons

- 1.) For the emphasis of exactly what this forum is, confidence in the community, and willingness to devote much more of myself with the new upgraded status
- 2.) The knowledge and contributions I plan to apply whole heartedly
- 3.) incentive to strive to be just like you, and eventually upgrade members like myself

I think this could be an investment in me and I would not let you down. I know I am fairly new, but I plan to use this time to build up myself while building up the forum

Thank you again for this opportunity :)

As long as you understand what you did wrong and fix it and your forgiven if your given a second chance you must of been given one cause your still here. I can see you've got over 400-500 posts and you do help people in the coding sections so here is your upgrade welcome to the leet side. I hope you will use your skills and talents to help people and expand your knowledge here.

As for the others don't feel down I will return to this thread now and again and upgrade who I feel deserves it most in that priority. I'm not picking favorites nothing I just look at your posts and your join date and from there I check out some of the stuff you post. I've even upgraded someone from a enemy crew.

Even upgraded someone from an enemy crew. I'm just familiarizing myself with the depth of crew involvement, but that sure says a lot. As always, appreciate what you are doing whether chosen or not. Just very nice to see members give back and motivate other members who may potentially do so in the future as well

I never got a chance to fully contribute to this forum because people doesn't take non upgraded members seriously, I joined in 2013 and never into any trouble here, I am really looking forward to join Leet/Uber family.

I have already made an entry but I have no idea where my post went, I am not able to find it on this thread, here's another one, I joined in 2013 and never got into any trouble with the staff or any members here, If I am fortunate enough to join L33t then I will start contributing more to this forum.

Thanks for the giveaway.
