Quote:I was given a vouch copy to review the method.

It includes a 12 page ebook, a pack (that is pretty low quality) and a public traffic bot. I have no idea how well the bot works since I have not yet had chance to use it. The ebook is pretty basic and includes information that will help beginners get started, there isn't really any information that is too revolutionary in the ebook, but it will be a good start if you want to get into autopilot ewhoring. One of the traffic methods in the ebook is described as "super hq" which I would disagree with but it can be good, but it does not tell you in detail how about you would set said traffic up, which is a little disappointing. The ebook goes over payment methods briefly and should be good for you to get started.

If you are anything above a beginner I would not recommend this ebook for you, unless you are just wanting to gain some insight into the autopilot aspect, but as I said before this ebook is nothing "new" really.

Overall, its okay for beginners but if you want to sell to more advanced ewhores I would try and include some more information. Cheers

The ebook is basically a 12 page eBook which basically targets beginners to start their ewhoring journey. You get two traffic methods in this. One of the methods is actually a software. The software is a public traffic bot that sends you traffic automatically (I have not yet tested it out). The other method is actually a traffic method I have already seen before in some eBooks, so that isn't anything new. This should be good for beginners to learn about it. I wouldn't say this is a private ewhoring method as OP states as I have already seen it before. The method, in general, is really good and should earn you good amounts of money. I have no doubt a beginner would benefit from this and will help them in automating their ewhore earnings.

Np, I will wait for others review then, some question

1. Can I do it from anywhere in the world?
2. I saw your payment proof only showing PayPal, I dont have PayPal, can I still do it?
3. Do I need to invest other than you?

1. You can do it everywhere in the world .
 2. You can use btc as well, but prefer PayPal.
 3. No there are no further investments .

is that public traffic bot working?

will i get real people or bot traffic using that bot?

Hello! This traffic bot will drive you traffic. But the main source of traffic is the second method. That needs just 10-15 minutes per day to be working .

?

Favorit - February 3, 2020, 11:18 am

is the traffic bot come from real people interested in dating and stuff like that?

how do you monetize the traffic to make money?

The traffic comes from real people of course.

There is no monetize for the traffic. :)

So I received a vouch copy of the eBook.

The ebook is basically a 12 page eBook which basically targets beginners to start their ewhoring journey. You get two traffic methods in this. One of the methods is actually a software. The software is a public traffic bot that sends you traffic automatically (I have not yet tested it out). The other method is actually a traffic method I have already seen before in some eBooks, so that isn't anything new. This should be good for beginners to learn about it. I wouldn't say this is a private ewhoring method as OP states as I have already seen it before. The method, in general, is really good and should earn you good amounts of money. I have no doubt a beginner would benefit from this and will help them in automating their ewhore earnings.

That bot was shared here in HF I think in 2016 [OpenSource], last updated by developer in 2018

and OP included that crap in his product in 2020. So get some idea why no one tested that.
