Thread: [Checked in but no 25 Bytes?](#)

Cooligan - February 2, 2020, 2:16 pm

So everyday for the last 150 days straight I've checked in on the daily thread, however today I didn't get any Bytes for my check-in post.

I've checked the thread and I've posted 4 separate times, and my Bytes history page shows nothing for today's check-in, just my most recent sports wagers.

Any idea why this would be happening? Not a huge deal as it's only 25 Bytes, I'm more-so posting this so Staff are aware of the issue, not sure if any others have encountered it or not.

Thanks guys!

Ah okay so I'm not the only one, seems to be a bit of a bug then.
