Thread: [I cannot sell my coins in cryptogame](#)

Evanescent - February 3, 2020, 11:35 pm

Hello,

I had bought ICX back then and I want to sell it now but it is not letting me sell.

I clicked SELL ALL here <https://hackforums.net/cryptogame.php?action=portfolio> and it just refreshes and nothing happens.

Next I clicked on ICX coin name <https://hackforums.net/cryptogame.php?action=view&id=37>
Here it shows I have coins in my portfolio but at the bottom where we enter the coins to sell shows 0 ICX.

Any help is appreciated @Xerotic@

PS: I tried to sell via the coin page and I got this error:

Quote:Please correct the following errors before continuing:

The specified coin does not exist or is not able to be sold at this time.
