You're wrong. Some 16 year kid who steals a \$5 note that someone left out is vastly different from a grown ass man making a business of pretending to be a girl on the with the intentions of defrauding as many people as they can.

What you do is abhorrent, what some 16 year kid stole once can be forgiven.

If you can't realize the difference then you're incredibly immature and out of touch.

You keep calling him a fraudster in a forum named HackForums. Many guys here practicing shady techniques but you are so focused to hate on e-whores. There are sections with many other BH activities that are worse than e-whoring like RATs, Botnets etc. Market is flooded with brutforce programs and crypters that are in a grey moral zone but you wont comment to every one of them harassing them. Come on, you even have your blackhatter award yourself saying "time served". You propably did something bad as well just in a different field. At least the "victims" of the ewhores never get to feel scammed or tricked because they bite into the lie and never realize the true but carding, doxing and jacking accounts can have far worse consequences.

Because e-whores have no applicable skillset. They're talentless retards like OP who are trying to coast through life as a know-nothing idiot. They're the ones who will be relying on other people and/or fraud to get them through their lives. At least other criminals here are learning skills while doing their actions, even if I don't agree with them. They will have redeemable qualities, they can use what they've learned to transition into real jobs with real skills, making a legal living. I did things that I regret, but in doing so I developed a good skillset that resulted in me getting job offers working in information security, now I make a comfortable living with a legal job that resulted from skills that I learned here, 10 years ago. OP will never go anywhere with this, he'll continue to be a braindead retard who doesn't have a single skill or talent other than defrauding lonely men.

OP will never go anywhere with this, he'll continue to be a braindead retard who doesn't have a single skill or talent other than defrauding lonely men.

I'm sorry that your child is going to have a father as pathetic as you. Maybe they'll get lucky and get taken by the government when you get reported for fraud.

No I don't?

You're a talentless retard who can't even make enough money to live.

Your child is going to have a joke of a father.

None of this applies to me

You said earlier in this thread you can't afford to pay your \$500 monthly expenses without e-whoring.

You have no skills. You can't support your family. Your newborn child is going to have a pathetic excuse of a father. I feel incredibly sorry that your child has to come into this world surrounded by people as stupid as you. From day one they are going to be at a massive disadvantage. You are the prime example as to why stupid people should not be allowed to reproduce.

You have no skills.
Your child is going to grow up with a pathetic father.
You can't support your family.

This is my last post. I'm talking to a wall.

Hopefully your child gets taken by the government or your wife realizes that your child will never thrive being around someone as stupid as you and takes the child away.

Your child who deserves better than you and that's sad.

actually this guy has more skills than you apparantly, while writing this stuff down he's making cash and may I ask you what you earned while writing your impulsive aggressive statements? Exactly, nada.

On top of that, if in ewhoring the ewhorer provides the customer with what he requested, I do not see the issue here. If the client is happy fapping to some pictures, both people are happy.

In addition to that as well, you said something about his English not being proper? HAhaaha well it seems you don't have to be a native to make some cash.

Its okay bro, some are sad in these times and I respect that, so I'll tab you on the shoulder for that and give you a tissue.

However in "hackforums", as another user here said a forum where shady practices are being applied, you shouldnt really get triggered by people like OP because.. well.. then you should go to forums called "my little pony" or "thomas the train".

I love it how people keep bringing up his English because if that's the best you can do, well, cool, you earned a grammar nazi badge, whats next?

OP mastered a technique which is not easy to do so yeah, hats of for that and I'm a satisfied student of his.

Let me know if you can include anything new into this conversation than the following two things:

- you hate ewhoring and ewhorers
- some people speak less advanced English than you

If not, I do not see a valid reason why you would continue posting here.

EDIT: unlike many, perhaps even you, OP sold something here which is actually worth the money, just saying. Instead of trashing a guy who's as well honest to people who buy stuff from him you should perhaps target 99% of the sellers here which sell shitstuff, because after all, they are scamming to.

But hey, you might not wanna open your mouth against 99% of the sellers and only to some random guy you dont like cause.. he does shady stuff.. on ..hackforums.. instead of "power rangers" forums

ohhh are we -repping now

Damn, I feel so :(bad :((((omg :(((-3 rep

You're the kind of guy who deffo got bullied and cried instead of standing up hahaha

You're the kind of guy who reports slightly offensive video's on facebook

TIP: if you -rep me, at least put the comment not to "high quality member". That awkward moment when you can't even -rep someone correctly
