Thread: [CRYPTER SOURCE CODE | OWN YOUR OWN CRYPTER | FUD | WORKS WITH NET AND NATIVE](#)

AMGTech - February 7, 2020, 3:37 am

I coded this crypter some time ago and was going to sell it but never got round to it because I simply do not have the time to maintain it.

You could purchase and keep for yourself as a private crypter or even start selling it yourself to make some money. You will receive the FULL SOURCE CODE and I can compile it for you if you'd like.

It works with all NET and native files and is extremely stable with a custom runpe, and best of all; it's totally FUD.

SCREENSHOT

VIDEO OF IT IN ACTION

The video shows it working with Quasar, AsyncRAT and putty (native file).

<https://streamable.com/q3rsz>

FEATURES

- Works with NET and Native Files
- Works with ALL RATS/Keyloggers etc
- Custom RunPE
- 3 Different Encryption Methods (RC4, Polystairs, XOR)
- Strong Encryption Key
- Save EOF Data
- Change Icon
- Add To Startup
- Unique Stub Generator (Each build is around 92% different)
- Totally FUD

I can add any other features you may want for an extra fee.

SCAN

<https://avcheck.net/id/VR4cR9XsARnx>

THE SOURCE CODE WILL ONLY BE SOLD TO 3 PEOPLE TO KEEP IT PRIVATE.
IF YOU WANT THE SOURCE CODE ALL TO YOURSELF, IT WILL BE EXTRA.

PRICING

1 of 3 copies - \$100

1 of 1 copy - \$300

Add any feature - depends on the feature - ask me.

4. select your currency
5. in product/service box type: Crypter
6. in your amount enter amount of package you want !!

AMGTech - February 8, 2020, 10:44 am

Crypter source is still for sale, I just added extra feature - add to startup

OGWires - February 8, 2020, 3:46 pm

is this fud scantime AND runtime?

AMGTech - February 9, 2020, 9:18 am

Once detected, do i have to pay for it to be cleaned or how long does the unique code going to last?

AMGTEch - February 10, 2020, 5:01 am

(Feb 9, 2020 11:19 PM)officebox1620 Wrote: [\[CITE\]](#) Once detected, do i have to pay for it to be cleaned or how long does the unique code going to last?! I coded it over a year ago and is still FUD, I can refund for a fee

AMGTEch - February 11, 2020, 6:53 am

Crypter source is still for sale, I started adding a theme and some more features because someone wanted to buy and asked to change some things.. Now he is ignoring me...

If anyone buys I will finish the theme so it looks much better

Here is the crypter now

(Feb 7, 2020 04:37 AM)AMGTech Wrote: [\[CITE\]](#) - Unique Stub Generator (Each build is around 92% different)

Hi, I'm new to this game. First of all, good looking product you made there. Especially with the new theme.

If I got it right, Stub is the file, which is able to FUD (or not) my EXE. So if every time I crypt my EXE with this crypter, a different Stub will be used (right?) There should be a high rate that this will remain FUD, because only one certain Stub can be identified and "un-FUD-ed"?

Is that right?

AMGTech - October 28, 2020, 1:32 pm

Updated this source and put on sale again, all FUD and working perfect!

Can add extra features for a small fee :)

Stanley - November 19, 2020, 6:35 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

The builder is written in ?
and stub ?

also any runtime check with any popular rat or something ?
