Thread: [New Notification Symbols!](#)

Stork - February 7, 2020, 2:23 pm

I just noticed there is now symbols showing if someone has replied or quoted you or one of your posts.

Pretty cool unless I'm just oblivious lol

Contracts, /Dev/Null: Ports, Popularity, Quotes, Mentioned, Replies, Private Messages, Quick Love all have an associated icon/color for easier spotting in notifications now.

EDIT: I just did do this, yes.

HF app with a new customized feed?

eXceptional - February 7, 2020, 2:49 pm

These symbols look great and also very helpful.

However sometimes I get more than 20 notifications. It would be great to limit it to 50 maybe. I don't want to miss on the notifications.

Geralt - February 7, 2020, 2:50 pm

That's nice! Love the details
