Thread: [Is this bitcoin gambling site a scam?](#)

Realrecognize - February 8, 2020, 12:48 am

I found this site and want to know if it is legit

Seems theyre sponsored by some sports team or vice versa. Found a lot of articles online from mainly websites I never heard of, besides bloomberg.

Still unsure if its legit. What do you think?

The gambling site is
Cryptomillionslotto (dot) com

I'm more surprised that Wolves allowed such a shady sponsor. Pretty awful actually.
