T.O.S:

Spoiler ([Click to View](#))

- I can change these policies whenever I want without an update notice.
- By purchasing, you automatically agree to all of my current and future terms of service.
- Refund option is only available to Elite package; you will have to message me with a clear explanation of why you are requesting a refund. If you message me saying "I want a refund, this method is trash" or anything along these lines you void your support, future updates, and refund option. If the request is unreasonable or I feel it's weird and or suspicious, your refund request will be declined.
- You must wait 60 days before you can attempt to claim your refund policy.
- If you say you "don't have time to execute", "I don't like your method", "I don't think I can do this" the material that was put fourth to you, or request a refund with something similar to those lines your refund request will get declined and no refund will be offered. You must have a clear proof with pictures of proof that shows that you've attempted the material that was put fourth in the course.
- Your refund policy is valid for a full 90 days, if you've purchased Swiftly Profit Elite package and after 90 days you request a refund it will be declined as it's passed the deadline.
- If you sales trash you void your lifetime updates, support refund option.
- Opening a dispute or chargeback will automatically void your future updates, support, and refund policy.

- There won't be an argument for "what is sales trash". If we deem a post is trashing sales then your refund option, future updates, and support will be voided.
- Any type of leaking of the material that has been shared with you will result in your future updates, support, and refund policy becoming voided. On top of that it will result in your private information being entered into the scammer database.

Not really worth the \$40. A lot of the methods in the eBook are public and unoriginal. There is one method which I had never heard of but it seems to already be saturated along with all the other methods included. (If an Ebook has more than 1 method that should be a red flag that they are all trash)

The pictures are pretty outdated which tells me that Swiftly doesn't use any of these methods himself. Also he does not go in depth at all for most of the methods. Especially the eCommerce section. You would find more information on a 5 minute YouTube video than in this entire eBook.

Seller also took several hours to deliver the book after we had been in communication many times.

I could care less about a refund, it's just \$40 lol but just letting you guys know before you buy that it's another recycled HackForums ebook, nothing special. Steer clear

NOTE : please keep in mind that this response to my above post with my order ID was posted a couple hours later. I received my copy about an hour and a half ago. I've read the entire method, and literally checked out the links that were posted in the ebook.

Here's my honest review of the purchased product :

First, I would like to say that Swifter is extremely polite and professional, and always responds QUICKLY. The support that I've already received is GREAT. I've purchased many methods here on HF, and this is by far the best method that I've purchased. I've already made my initial investment, and in a few days, earnings will start to come in. I will post an update including a video of the income. This does not require any skill at all, all you'll need is to be able to invest a little cash into this (speaking about the first method). I've personally invested \$150 into this, but you don't have to invest that much at all. \$50-\$100 will work perfectly. This does not require an ebay account, although you can use that platform if you wish. I'm performing this method in person. (my personal preference) This method can also be HUGELY scaled to make more money. Basically, the more you invest, the more money you'll make. You will start to earn after a week. The way the ebook is worded and explained makes this SUPER easy to perform. Swifter did an excellent job of writing this book.

10/10 rating for the method itself.

5 Star Support rating

Will I recommend this method to a friend? - Of course I will, and I've already referred 5 people to buy this method.

--

To all you skeptical people who are reading this, I am a skeptical buyer as well, and I'll honestly say that this method has passed all of my tests, and WILL make you money, no matter what niche you choose. If you guys are actually wanting to make some money, and actually be able to work from home, this is your chance!

Thank you Swifter for actually not selling some bullshit method. ?

(Dec 27, 2021 02:48 PM)keatong Wrote: [\[CITE\]](#) Dozens of open disputes? Care to explain OP?

A dozen would equal 12. Which is lower than the number of open ones, but you can read it for yourself to decipher them. It's pretty self-explanatory after reading through them.

The misrepresentation of the deal dispute system as being only scams is redundant. None of the open disputes are related to scamming of any user. They're based on either newly registered users

that expect ridiculous results from a product or service from what is listed or who don't understand the policies/etc. Also, some users barely log into the forums to have a conversation to come to a resolution or to help them through the difficulties that they may have. (Keep in mind 95-99% of the open disputes are almost 2 years old).

(On top of things some users want extra cash on top as blackmail to close the disputes)

Just because others have the same idea or scope of methods to a working one doesn't mean it's going to stop working or get saturated. If it does then it's not a very sustainable method. I'm willing to share some of the methods and make it into a "business", then why not? That's why it's created into a course ?.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
