It's cool. I don't know much about beats, but maybe try to add some structure to it. Change up some parts. Don't just make a loop that is long 1 min 30 seconds. Have a start, a hook, a drop, a fade. If you want you can also add a melody. Some instrument.

I am making more everyday. Probably will try to release at least 2 a week in hopes of making music a career someday.
