Mafia Official Group Recruitment

Introduction:

Welcome to the Mafia recruitment thread. We are an official HF group. Within this thread, you can apply, view the group perks, read up on what Mafia is and see if you are eligible to join. This recruitment is unique and much harder than most other groups on here for the simple fact that we don't just let anyone buy-in to our group. We require both approval as well as payment. Instead of a normal application process, we will still investigate users based on their HF account. Why we require payment will be discussed later on.

Group Information:

Mafia is a multi-purpose group. Our main focus is gaming, gambling, and of course making money. We will try to have everyone active as much as they can, and we will try to make a digital family with its members. Our goal is to have enough members in the group so that when you want to play a game, you can find someone within the group to play with. At the same time, however, we want you to be able to view the members and not see someone you don't know. That is why we have a limit on how many people we will be accepting. This limit may increase/decrease at any time based on the group's needs and direction.

Group Perks:

- Periodic gaming & gambling tournaments where you can win money. E.g VR Poker in PokerstarsVR, League of Legends, CSGO, and many other games
- If we open a tournament/contest etc to people outside the group, your fee will be waived
- Periodic private giveaways such as a PS4 Pro & Nintendo Switch among many other things such as game codes
- Access to our awesome, animated userbar which can be seen either on myself or below where I post our gfx
- Access to a private group chat with a custom rank based on your membership

- Access to private methods that we offer mostly to make money but also many other useful methods which will constantly be given to members - courtesy of Trojan
- Discount to products and services offered by group members. (Such as website hosting by me)
- Custom name color is planned in the very near future
- Custom stars under your name which we are also planning to change to shotgun shells or another type of ammo
- Many other perks soon to come

Group MINIMUM Requirements:

- HF Account must be at least 3 months old (90 days)
- Must have at least 100 posts
- No VALID/Open Deal Disputes (by valid I mean we will investigate the DD and see if we think it is legitimate)
- Fluent in English

Apply how? He's just selling to get into the group.

I don't know if I should buy into a group which was rebranded days ago with 0 activity and 50\$+ spots.

I can't understand why people are just trying to make money by selling spots. Now all the groups are equal they all now have a Gif and some stars which are useless unless the group is active.

I can always accept an invite if anyone is looking for active members.

Stanley - February 14, 2020, 2:37 pm

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I have got a query for you before I look at applying. Aside from the \$440 price difference, what differentiates the 'soldier' rank and the 'underboss' rank?

The soldier is just a lifetime group member while underboss is our group leaders. The descriptions of what each rank/role is are written beside each on the thread.

While we do offer invite-only spots for free, we generally require a buy-in because of the perks we offer. The perks aren't free for us to provide, so why should you get them for free? That's the reasoning behind it. Either way, if you are interested please send me a pm and I will do a profile investigation and let you know if you qualify to join our group.

We definitely have "free" leaders but the price is there in-case anyone that gets approved to join Mafia wants a leader spot. It's not something we are really promoting nor is it something we want people to really buy but the price is there for sake of having a price, I don't think I would really let anyone buy a leader spot atm anyway.

HQIT has done fuck all to say the least, and now that he is banned, when I asked for a refund of my buy in price, he had a sook and blocked me. I know it's in the contract for anyone to be removed at any given time, but, it's a really bad decision made by him considering there are only 3 members in the group. Umm? very good question indeed.

I have thought about this many times.

However with the uncertainty of groups currently and there future here.

For me the time is just now right.

This being said: If i ever bought a group, my first idea would be to ask Cryptic™ permission to bring back the original BrotherHood.

Quote:Introduction

The Brotherhood is currently a closed group that was previously known for recruiting members for sections like Gaming, White Hat Help, Computing, Pentesting, Graphics, Music and Server Administration. The group previously hosted a "Spy Squad" that worked towards exposing members who were multi-accounters, account sellers, and account buyers. Today, the group is focused on teaching members how to become White Hat Helpers.

However even if Cryptic™ granted me permissions to revive the group?

I don't see any if at all qualified malware removal/cyber security members here.

Other than [Aura](#)

All the other computer/cyber security members from the old days are long gone from HF.

The (White Hat Malware, Virus, and Rat Removal Help) section is a mess and nothing like it was when i was very active there with the BrotherHood.

This being said my second idea would be to have a Goons Group.

Seeing how my crew is very active daily and we all work very well together i feel this would be the best choice as of today.

I have always been able to keep my crew busy and active daily.

My leaders and i all work very well together and find the best active (Big hitters) in this new Hackuman game.

A crew/group working together? the possibility are endless.

We have a way of bring people together as a group.
