Thread: [Need Job Asap please.\(Website Developer\)](#)

runegp - February 11, 2020, 11:15 am

Hello all.

I am urgently in need of a job, and i need to make at least 800\$ within the next week, in order to not get kicked out of my place.

I can code any sort of website you want(PHP, js(jquery), html css), or help you with your current one. (Let it be in JS or PHP).

I have created several websites before like : Packloot.com, runegp.com , and a few more that are not currently online.

I have knowledge of Linux server configurations as well.

I'm fairly quick when it comes to development.

Please dm me your discord or skype :)

Best regards,

johnisnotjohnjohn - February 11, 2020, 6:49 pm

@Loyalone96 Telegram, msg me

800 dollars in a week, I think HF is the wrong place to look then lol.

People tend to lowball such services here.

I think ill manage to get it :)
Almost half way so far :)
