Thread: [Hackuman Game || How to get the Eggs & play the game \[New System!\]](#)

flavoral - February 12, 2020, 2:17 am

Current Update: Game Reset, New Seasons System & New Award!

Description: Hackuman Battle page was fully reset, All HUMs, Dungeons, Eggs were deleted and stats were reset back to 0. A new Seasons system was introduced, where each season is 3 months. Players were allowed to keep their existing items for the 1st season, but they will be deleted started from the next one. In addition to that, a new HUM Award was introduced "Molten Sword of Hackúman" which will be given to the winner of each season.

Q: What is Hackuman?

A: Hackuman is an HF interactive game, which you can play by yourself against others, or team up with multiple users in a crew. You hatch the eggs to get a HUM which you will need to raise by feeding him, and leveling him up by attacking and killing other HUMs.

Q: How long are the Hackuman Seasons?

A: Each Season is 3 months long. The Official Seasons Months are as follows:

Season 1 = February, March April

Season 2 = May, June, July

Season 3 = August, September, October

Season 4 = November, December, January

Q: How can I get/find a HUM egg?

A: The eggs can be found randomly by posting in any section of the forum. However, make sure to avoid LQP.

Q: Why does my egg look black / disappear / rotten?

A: Unless you hatch the egg or put it in the Lottery, it will start turning black then die and disappear within 7 days from getting it.

Q: What's the difference between a , , , ?

A: The simple answer would be the rarity and the stats you will get. The more rare it is, the better stats you will get.

Official Odds:

- > Most Common - 8%
- > Common - 2%
- > Less Common - 1%
- > Rare - .1%

Q: What are the different HUMs i can get from an egg??

A: You can randomly get one of the following HUMs:

Q: How can I level up my HUM?

A: You level it up by gaining xp from attacking and killing other HUMs.

Q: how do I fight better at a low level?

A: A good strategy to fight and lvl up at a low level would be to power up your HUM eggs from the same color. That would power up the stats of your HUM making him stronger at the same level. That way, you can attack and kill other HUMs easily. So for example: Hatch a green egg, then power it up while it's at level 1 with 10 other green eggs, you will get much stronger HUM stats. Now you can attack other HUMs at the same level as yours and be able to kill them quickly.

Q: Why does it say that I don't have enough moves for this action?

A: You're only allowed 150 moves to use in 24h between feeding your HUMs, hatching eggs, attack, and purchase items from the shop.

Q: Can I hide my Hackuman from other people attacking it?

A: Yes, if you go to the the Hackuman Shop, you will find Invisibility Potions which you can use to hide your HUM for 24h. However it can expire if you attack anyone before the 24h ends. Furthermore, this type of potion can only be used with HUM with a max level of 40.

Q: How can I get the Molten Sword of Hackúman Award ?

A: You earn it by being the winner of each Hackuman Season.

Q: How can I get the Hackuman Award ?

A: You get the Award by leveling up your HUM to lvl 100 then you Self Kill it.

Q: How can I get to level 100?

A: Get good.

Q: How can I get the Hackuman Award ?

A: You get the Award by killing 50 HUMs.

Q: How can I get 50 kills quickly?

A: Speed will depends on how you play the game, but one of the best strategies is using the previously explained method of Powering Up your HUM while it's at level 1 so you can quick kill more HUMs at low level. This however will only be good start when it's at level 1. It will get harder to keep your HUM alive and be able to kill multiple HUMs. So you can either keep hiding your HUM to keep it alive, or hatch another egg and repeat the same initial method.

Q: Can I hide multiple HUMs at the same time?

A: Yes, you can hide multiple HUMs at the same time. However, you can only hide 1 HUM per range at the same time.

Q: Can I attack while my HUM is hidden?

A:Yes, HOWEVER your HUM won't be invisible anymore. You will have have to wait till the Invisibility potion 24h timer ends to be able to use it again.

Q: Is there other ways to get Hackuman Eggs?

A: Yes, you can earn more Eggs from Lottery.

Q: How can I join a crew?

A: As of this moment, there's no "Apply to this Crew" automated page. You will have to contact different crew owners to see if they want to invite you. You can also purchase your own crew.

Q: Where and how can I purchase a crew?

A: You can purchase your own crew from the following page where you will find the different types and prices: <https://hackforums.net/gamecp.php?action=crewtiers#lqv>

Q: Can I be in multiple crews at the same time?

A:No.

I'm also not sure, perhaps Xero can give use more info?

vyactor - February 12, 2020, 2:22 am

Not sure where do we actually find this shit egg. Not even sure how do we discover that lol. I'm really curious about Omni to post something related to this.

Snowwy - February 12, 2020, 2:30 am

A fair amount of people have the green one already, so not sure if the others are super hard or the green one is gonna be altered to make it harder..

Does it give users an actual award below their profile picture? I haven't seen any green eggs in

posts. And also I read that you have to clean up after it hatches or it is going to leave poop on your posts. Is the poop like emojis in the text or is it more like pixels over the post. Also how does the creature that hatches look like? I haven't seen any pics.

The creature is a mini Stork. The gold egg is for full sized Stork twins. Not sure about the blue one yet. We'll find out really soon. Also, I heard the poop is not your usual poop but actually it smells really good, you know something about that?

Do you think the ten posts needs to have a certain number of characters in them (for example would they need one hundred ad mentioned in the original post). Do you think it is like the green clover but more common?

Well Omniscient certainly did the right thing with implementing this new award(disregarding the other two), it seems to be a fairly popular topic with people seeking it, etc. Quite a few people have already won it, some ironically after just posting about it, then the others just at pure random from what I've seen.

Well for the green egg, it definitely isn't 100+ char post because I got it when I posted less than 100 characters. For the blue one, I have no clue though. Didn't even think it was released yet let alone someone getting it. Hopefully, I get it at some point though haha.

Lets see if i can get the green egg award from HF right now during this Hackuman season. I would like to be awarded the green egg award so im going to post +100 characters in this post. Omni bless me, thank you for your presence. Here is a short quote regarding success and motivation:

Push yourself, because no one else is going to do it for you.

Sometimes we make the process more complicated than we need to. We will never make a journey of a thousand miles by fretting about how long it will take or how hard it will be. We make the journey by taking each day step by step and then repeating it again and again until we reach our destination.

The more often we see the things around us - even the beautiful and wonderful things - the more they become invisible to us. That is why we often take for granted the beauty of this world: the flowers, the trees, the birds, the clouds - even those we love. Because we see things so often, we see them less and less.

I see the other 2 awards but no one other than one person got them, does it has some requirement like "must be OP thread" or something?
I would like to know what requirements are as well. I have seen ppl getting the green one with less than 100 char post so I dont think that is true. though maybe it has to do with rating a post on a thread? maybe someone should try that RIGHT NOW HERE lol if it works then we will have figured that out. as for gold and blue no idea how that would happen.

It probably is 100 characters for both awards, the blue egg most likely just has a much smaller chance of dropping. Chances are there isn't anything super special that you have to do for it.

I have mixed feelings on it. I want to put it in but at the same time I don't want to see it go. My luck is terrible most of the time. Most likely waiting to see what others end up with.

I would exactly do the same, and since you got a rare blue, that worth much more. Patience is the key, and watching what happens to others.

Yeah i know mate but look at the state of the green eggs there all just about black the early ones
<https://hackforums.net/myawards.php?awid=137>

But yesterday we got an extra incubator i now have 3 incubators

Plus Xerotic was laughing at me saying my egg was dying then so i think they have to be incubated or they will just fade away to nothing

I'm putting my blue one in today that's for sure i wouldn't want to lose that because that's only been 3 of us who have the sapphire egg

Those green eggs those are eggs that have been incubated or eggs that have just died? Interesting none the less.

Anything you see on that page are not yet incubated eggs. More grayscale means more rotten. So this is why the older ones are 91% grayed, and the new ones are green yet.

But another strange thing is why don't the blue eggs show on the award page i know the other blue egg has been put in the incubator mines and yours has not yet it's not on the award page

Yeah that actually bring me another theory. Could it be that there's only a limited amount of eggs per thread?

You could be right because Xerotic won his egg on the thread spiral made and i won my blue egg on the same thread and i don't know if anyone else won an egg from his thread . Do you know ?

Guessing game but i think you have more chance on new threads mate ?

Yeah most likely limited amount of eggs per thread. OR it's by odd per thread.

example: you have a %5 chance of winning an egg per thread.

It's weird isn't it there seems to be no pattern look at the day i won my second green egg in the space of 20 minutes another member won a green egg just NO pattern there

But you could be onto something with your 5% chance on a new thread mate ?

Your eggs are at 80%.

Check the progress bar's property: Code data-progress="80" and check the code it come from. I

Read through the last couple pages, nothing on it unless I missed it by accident.. I would like some information on this as well, I'm excited to see where this Hackuman game ends up going, I'm also excited to get my first fuckin egg but who knows when that'll be... already nearly at 100 posts, no luck :(

I couldn't agree more, i started of with a huge luck - got my first egg on my 10th post.
But my second one took 100+ more posts ?

And yes, 100+ chars is most likely needed.

I'm confident that my persistence will grant me that sexy blue egg whenever Stanley decides to hook me up. There actually is an award dedicated to weed, the legalise It award. Mushroom would be a bit more hardcore though.

Mark my words, now that weed is slowly being legalized across the United States and eventually will be on the Federal level - the focus of society will shift to Psilocybin Mushrooms and silent activists much like myself are just waiting for somebody to lead us - tons of educated people ready to fight for shrooms, the time just needs to be right ?

You get an egg by randomly posting and having luck. Once you get it you can place it into incubator here: <https://hackforums.net/hackuman.php>

Fee is 100 bytes and 20 bytes per feed. :)

Bytes are not the issue. I really only need to get some luck and get myself one of those eggs. It does comfort me to know that noone has been able to hatch it yet though, so I'm not that far behind :P

I get this question quite often and it's always been difficult to describe - but remember the first time you smoked weed/got high? It's kinda like that just a lot more intense. Depending on the quality, dosage and species of mushroom, you may or may not have visual hallucinations that make you think "What the hell?". You're very spacey and slow during the come-up and peak during a shroom trip, but on the last couple hours of the comedown - you have some of the most critical and reflective thoughts you've ever had. Psilocybe Cubensis, the Golden Teachers, live up to their name and will teach you things you would've never imagined learning. There is no such thing as a "bad trip", there's only trips where people refuse to listen to what the mushrooms tell them. When the time comes, listen to them - they're much wiser than you.

Yeah, because it's currently not possible. All of us who placed egg into incubator are stuck at about 80% and we can't feed it further.

Hopefully in a few days we'll see what it's all about.

Do you recall the amount of Bytes you had prior to getting the award? All the members with the award that I've seen have a couple hundred and up, I'm unsure if that would have any impact on the chance to receive the egg but people with lower Bytes (such as me) have been the ones posting HELLA for this award.

I think I had like 900 bytes more or less.

Could be tbh since egg would be useless if you don't have bytes for it. Never thought about it.

It varies from person to person because everybody has different things holding them back in life, things they dislike about themselves, etc. The shrooms, more often than not, will allow you to view those negative things from a different perspective. If you dislike that new perspective or are overall just uncomfortable when it comes to facing these issues holding you back, you'll quickly be overrun with anxiety and a very negative mindset aka a 'Bad trip'. When you're on shrooms, mindset is everything. If you're feeling great & positive, your trip will reflect those emotions. If you're feeling sad, overwhelmed or stressed - the shroom trip WILL intensify these emotions, which can be a good or a bad thing depending on the person. I personally use shrooms as a method of healing, if there are thoughts & emotions weighing me down, I allow the mushrooms to show me the cause of the negative energy, how it's affecting me and some potential solutions to the problems. But that's just my mindset prior to tripping, which is why I am successful in my goal of healing.

The 2 MAJOR things to take into consideration prior to tripping is the environment that you're in and whether or not you're in a "Fuck my life" or "I want to die" mood. Environment wise, it's important that you're positive that there will be no unexpected visitors/events, as the shrooms make paranoia a very easy thing to experience. Environment is the first priority. If you're in a suicidal/not caring about life mood, do NOT take mushrooms because all that will happen is you'll become very careless, and possibly become yet another statistic within irresponsible users, pushing the ultimate goal of legalization further away. man do I love talking about mushrooms :)

I wasn't even aware that this award even existed! Thanks for the post!

I think it is a fantastic way of persuading users to contribute higher quality posts and threads that contain a vast amount of detail. By this award existing, not only HF in itself thrives, but it encourages members to contribute more than what one would normally do. I tend to write fairly long posts the majority of the time when it comes to responding to certain matters and I worry that a lot of the information contained within my posts is looked over due to the amount of writing.

Perhaps I am overthinking, but nonetheless, I really hope a lot of my posts are truly read in its entirety and not simply read in a half-assed manor. It makes me feel good to contribute and I am saying that sincerely.

Would be a good and bad idea.

You will get smugglers that will smuggle them monsters in and sell them on the black market for profit.

You can see every hackuman has 4 stats.

1. HP
2. Food Points
3. Attack Points.
4. Shield Points.

Make sure to keep your hackuman alive by feeding him.

You can attack other members if your hackuman level is -/+ 5 of theirs.

By attacking them you will level up your hackuman and he will become stronger (every stat will increase with each level).

This would be some of the basic stuff I guess.

i've done a few good tests on it and it's fun when it comes out it will be a game changer for crews .Will make crews a lot better well the crews with hardly any members i'm on about ?

When I was starting playing the hackuman battle I used to play on my own...I got some kills but when you touch some guys that belongs to the crew then they will get you back lol

In time while playing, you'll get along with what you need to do and what you should avoid to do :D

You'll surely enjoy it and try reading some information about the game so you'll get some great advises.

you won't survive for long without a crew. Being in a crew will extend the duration of you staying alive depending on which crew you're in.

I will give u a tricky advise since u r new to the game.

Yes, u can very well survive, if u know how to play the game with a proper planning, then crew members can do nothing.

Remember, a crew can hold maximum 10 ppl, not more than that, and max 3-5 people can only attack you cause, many are not from same time zone and there are many other factors a normal non-crew member ignores and get hit by crew members. If u want to learn, get in touch with me.

I got 47 kills on my own, and 3 more with the help of others. Award is achieved with in 2-3 weeks of gameplay. So ur gaming skill, planning and smartness is all that matters.

I just need to re-write the thread in a cleaner way rather than the mess it used to be, which what i'm planning to do this weekend hopefully.

I personally like this mega discussion thread because it kinda shows the progression of how people kept thinking of the game since day 1 till now and how everyone kept saying theories on how to get the eggs or how to play the game.

Yeah even if's possible to win another from a post and i would think it would have the same power as a green no doubt ..

Would loved to have something done with the lottery tho even just let us put on 3 eggs per day this 1 egg is killing the game and look what a blue egg brings now ?

I mean it's not like i get blue eggs. My current rate is 1 green and 1 red per day, so it works well for me as i just throw the new ones in lotto when the current ones end

Current Update: New HUM Alerts System

Description: [Xerotic](#) updated the alerts system for the HUM game so now instead of PM from [mention=3583467] when you find an egg, you simply get an alert for it. Also, you get alerts if your egg has 24h left before it expires, when it being attacked and its health drop to 15%, and when your HUM is killed. You can turn on and off the notifications from your notifications settings.

Should my sole goal be to level up by attacking higher level HUM, or do I try to kill lower level ones?

I don't know if my current HUM is simply pathetic (despite feeding it 3 eggs) or if I need to change something up, but it's level 4 and averages in the 0.0X range even when attacking level 1 HUM. Doesn't seem to be anything in the shop to speed up levelling so I assume I just play passively and grind levels? Think including that in a FAQ would help newer players.

Better go for the lower or same level first for your hum to gain more XP on the battle :D

The best strategy is:

when you first hatch an egg, your HUM is safe for about 24h as nobody can attack a freshly hatched egg with lvl 1. Now try farming more eggs with the same color, and start feeding these eggs to that HUM to lvl it up. The stats of your HUM will go up while the lvl is still the same. After you max out at 10 fed eggs, attack the same low lvl HUMs with low stats, you will be able to kill them with few hits.

(Jul 22, 2020 04:15 PM)Doubt Wrote: [\[CITE\]](#) A common question I have is how do I fight at a low level?

Should my sole goal be to level up by attacking higher level HUM, or do I try to kill lower level ones?

I don't know if my current HUM is simply pathetic (despite feeding it 3 eggs) or if I need to change something up, but it's level 4 and averages in the 0.0X range even when attacking level 1 HUM. Doesn't seem to be anything in the shop to speed up levelling so I assume I just play passively and grind levels? Think including that in a FAQ would help newer players.

If you are going for kills attack low levels, once you are high level you can't take anyone out on your

own, if you just want to get to higher levels attacking the high level ones makes you level faster

Apparently Freagle can also come out of non-independence eggs but the odds of that are very low.

Negative only thread that gave the idea, but never had anything updated was KJ. Neither of yours had actually content or important pieces that's a fact.

Don't forget I was really tapped in with the game.

Your thread was talking about the hype of pokeball eggs and people talking about they finally got an egg. You just changed the conversation & topic after I dropped my thread and your thread wasn't that active. Mainly a lounge thread no help lol.

You do realize that when I posted the thread, it's was the same day the eggs got released? You couldn't even hatch them yet. And since that, i kept updating it along the way till this day. The whole purpose of this thread was to post updates, and the Thread title style never changed. i was playing the game the moment it launched hence why i was able to keep updating it from when it's was just eggs dropping, to you being able to hatch them in the HUM.

My thread was posted 1 month before KJ's and about 2 months before yours.

Main thing of this thread was the updates, and it still is if you somehow have some eye problems and can't see both "New Update" and "Old Updates" sections.

Also lol not sure wtf you on about when you saying my thread wasn't very active when it was and still is the most active thread regarding HUM eggs, and HUM ??

Also both your thread and KJ's are outdated.

"Mainly a lounge thread no help lol." If i remember correctly, the HF Games section might not been thing back then, so lol. Also, the title literally says "DISCUSSION THREAD".

So feel free to complain or thinking that you're the one behind this idea.

EDIT: that's exactly when I was planning to redesign the thread in a cleaner way as it was still active and the updates weren't organized.

The best thing to do is as soon as you get a Freeagle, you should try to max stack it with 10 eggs. Do you know if Freagles from random eggs are as strong as the Freagle from the 4th of July egg?

Nah I they are not, Freagle eggs were a rare 1 day thing hence why they got such strong stats.

That doesn't mean Freagles aren't stronger than other HUMs tho, they still strong, when being attacked, nobody can use a Special Attack on them too. Best 2 i would say are Freagle and Ratr

Ok, it makes more sense now. Anyway, now that you mentioned it, have you used any special attacks successfully? I've failed so far.

Special attacks are more effective when used with multiple HUMs, Also each HUM (except Freagle) have different Special Attacks.

If you mean Attack moves, you will have to wait 24h to use the moves again.

If you mean refill the stats, make sure to fully feed your HUM for it to be able to restore it's stats faster.

So for moves - they go back to 150 every 24 hours?

And to refill stats, it's automatic over time?

Moves, yes. Refill stats, yes. If your food meter is high, it will heal faster, if it's low, it will heal slow.

To some degree, yes. Ratr are the best in attacks, and if you have multiple Ratrs, you can do huge damage with the specials. Freagle is strong, no HUM can use a special on it, but it doesn't have a special attack either.

Just make sure that you will be posting comments that suits for the thread and everything will be just fine.

We should not just have it on low quality posting and spamming type.

Eggs would be coming for sure and I am just hoping to see some Sapphire or Gold pretty soon :D

I've hatched two eggs, and then I do like 0.05 damage to people, use all my attacks to accomplish nothing. Next day I wake up and some big egg has just 1 shotted me overnight.

How can I even survive the lower levels?

You can read the FAQ in the thread for some tips.

Q: Can i hide my Hackuman from other people attacking it?

A: Yes, if you go to the the Hackuman Shop, you will find Invisibility Potions which you can use to hide your HUM for 24h. However it can expire if you attack anyone before the 24h ends.

Furthermore, this type of potion can only be used with HUM with a max level of 40.

If I keep hiding my hackuman for 24h, will it level up? Does it level up for just surviving? Or do I have to attack in between invisibility potion uses?

Do you know the rate of level up with the above method?

You don't level up by hiding. You only level up by attacking enemy HUMs.

Fair enough. Sounds like to me, you need to have a lot of bytes capital to make it anywhere on this game, as the potions at the level 30's cost like 150 bytes a day. Otherwise I'll just get rekt like before by bigger hacukmans if I'm not hiding, until I get to a higher level where I'm not getting 1 shot.

Do you know how many bytes you get for kills?

Freagle is bit more rare and have small boosted stats, otherwise, all are similar. Difference comes to Special Attacks.

By feeding your hum, it can heal himself pretty fast, regenerates his health, attack power and shield more faster when you fee your hum.

You will be leveling up once you attack other hums, no matter if you be able to get kill or not you will still level up.

Awesome thanks for that. That's really helpful advice, I was trying to figure out how I can even get past level 1, as everyone has such high base stats and too hard to kill.

Even with a 10 stack green egg my stats are so low.

How much difference dose egg colour make in regards to stats. I assume a lot, but obviously I can't tell what colour certain hums were hatched from and how many eggs have been used to power up.

Also, can you give me any information on dungeons. I have no idea how they work, or if they are even functioning at the moment.

Hums from the green eggs are the weakest ones...but if you've got the Freagle out of it and have them stacked up with full 10 eggs it will gives you a powerful hum.

Hums from a red eggs is much more powerful than from the greens. Sapphire can stand alone without any stacked up eggs and so as the rare Golden egg.

You can find the Dungeon if you are a member of a crew, those who plays the game without a crew can never go with the dungeon.

I see you're going for blues. Stack those and they'll be stronger than a stacked red or green. You can't tell what egg they're from after hatching, or how stacked, just clues from their stats.

Just be careful if you're crewless, The Plug is pretty brutal.

There needs to be another crew active on the table, so we can compete.

Grim has constant presence. But everyone else comes in with a weak HUM and gets gang banged.

I'm still learning the game and experimenting. I have realised that you need a strong hum with base stats level up and if you are solo give them an invisibility potion once you're out of moves so they can't be attacked.

At least when I was playing it.

Every time I incubate an egg I then get wrecked by someone before I can even respond. I invest my bytes and then moments later I'm poor as all hell. I think you've got to hoard eggs to power up and only then you can start attacking.

Every hum that's recently bring to the battle git 24hrs immunity so no one can actually attack that hum but if a hum tries to level up and attacking others and went to level up his immunity will be revoked and can be attack as well. You've got 150 moves per day to use for the hum game.

If you hatch a green egg for instance, you can use other green eggs to power up the HUM you hatched from that first green egg. This works for all eggs except amethyst. You can not power up Vise which is the HUM that comes out of the amethyst egg.

Does it have to be before you've leveled up the HUM? As in, do they have to be level 1? I should probably just switch to desktop view to see if I'm just missing something.

You can't have the same color at the same time. You need to raise it over the battle for you to get another same color. One at a time.
