Thread: [\\$500-\\$3000 MONTHLY WORKING 2 HOURS PER WEEK. 90+ VOUCHES FROM COSTUMERS](#)

Dr. Einyel - February 13, 2020, 5:30 pm

Earn around \$500 at least, working just 2 hours a week.
Earn around \$3000 if you make an extra effort.

This is a new thread. I closed the old one because I wasn't able to edit anymore and the price changes very often.

If you want to check the old thread and confirm all the vouches, [CLICK HERE](#).

First of all, I want to be explicit. This is MY PERSONAL METHOD. I say PERSONAL, because this is something I DO MYSELF currently, and I designed it myself, reading a lot on the internet. I assume other people could be working on the same thing, so I won't put "PRIVATE SECRET EXCLUSIVE METHOD". This is an honest thread.

I study medicine, and I CAN'T WORK 24/7, so this income is what I get investing only about 1-2 hours a day on weekends. If you want to work daily on this, you should be able to make a lot more.

With my method, you'll be able to earn around \$500 working only about 2 hours PER WEEK. Please understand I'm being fully honest. My title isn't "\$1.000 per day! COME AND BE RICH IN ONE DAY!!!". No. It is around \$500 a month, but it is stupidly easy, and requires no skills at all. Down below there is a requirements list. If you have those requirements, you have all you would need to make money. Plus, if you make an extra effort, you could escalate this and make around \$3.000 or more. My offer is around \$500 because this is what you'd make working almost nothing each week, perfect for an extra income.

Why are you sharing your method?

Two main reasons:

1. It's not saturable. I wouldn't share this if I could be affected by many people joining.
2. Extra money. As simple as that.

What do you need to be able to use this method?

This is a WHITE HAT method, so we will be using real-life information. You would need:

- You need to live (or have a friend/relative/partner) in the USA.
- A real and solid PayPal account.
- A real US bank account with credit or debit card.
- Money to start. This method requires investment. I started with \$50, but currently, I invest around \$300 - \$500 to increase the profit. I would recommend to start with around \$80.

This list is only about the vital requirements for the method to work. There are other requirements that if you have them, you'll start making a profit faster, but I will share these after payment since it involves talking about the method. If you don't have these extra requirements, you'll just need more

time to start earning money. Having what's listed above is enough to know you are able to perform this method.

Note: I live in VENEZUELA. That's why I need the help of a partner that lives in the USA and has these requirements. This is why I only make around \$500 monthly. If you are a US citizen, you'll be able to get the whole profit of this method (if you want to do extra steps), and you could earn more than \$3000 if you do it right. But, since I'm making an honest thread, I'm only offering about \$500 profit that I'm 100% sure you'll be able to make even if you're not in the USA, just like me.

There is no PDF file, so everything was in a chat form.

Let's get straight to the method itself:

- 1) To be able to execute this method you or the person you know has to be in US.
(US residents = about \$1000-1500/mo.) Non US about 50% of the amount made per mo as another half is going to your partner in US.
- 2) Totally whitehat. Won't put your PayPal account in risk. It is not autopilot. In order to see earnings you need to actually put in work.
- 3) Needs investment, but you can start with as low as \$10.
- 4) Involves talking to people and selling. (Selling is easy as there are always demand)
- 5) You are profiting in 3 different areas related to this method. For example: you can turn \$20 investment into \$45-50.
- 6) Some of you already know this method. You are doing some sort of service for your clients. However, OP is practically spoon-feeding you, meaning you get access to his clients (that's where

you gonna make money).

I would say it's totally worth \$40. You get step by step instructions with what to do and how.

Thanks for providing a vouch copy.

(Oct 19, 2019 01:06 PM)MiamiHeat Wrote: [\[CITE\]](#) Honest Review:

He called me on Skype and went over it all step by step. There's 2 parts to what he does. The first part is something that i've done in the past but haven't in years. It's not private in any way but it I don't think too many people on here do it and it is a great way to get products. The 2nd one is not really a method at all but basically just a way to help really monetize this at a larger scale. Both of them added together is a great way to make some extra cash and something that I have not seen on here before.

The profits that he mentioned are definitely attainable. Setup time is dependent on a number of different factors and saying it will give the method away so I won't. But in my case, it didn't take any time I was already ready. You do need to have money to start on this so the amount of products you get back will be dependent on the money you put in. I paid the extra \$10 for his contacts. They aren't "needed" but in my opinion it makes this easier and more cookie cutter. I can go out and find them on my own but since I'm buying a method, I'd like to be spoon fed with everything that I need.

What it's missing:

What I would have liked to see is it written in a text document with every step laid out. Mainly with links on where he found his contacts, more details surrounding. He gave me suggestions but I want specific links on what worked for him. The do's and dont's of the method. What to look out for so you don't get scammed. Again, he gave me all of this already over he phone but I would have liked it in writing so I don't forget. I would have also liked for his specific contacts to be included in the price. I don't believe I should pay extra for that.

Overall I would give this method a 8/10. If you live in the US and do both parts you will get free stuff and make money in the process. There's no way you won't be able to unless you just don't follow his instructions. Probably more than what he suggested in the title if you were to do this full time. It is not possible for this to be saturated because so many people do it and there is always a constant need for it. Absolutely no way can too many people buy this and ruin in. His communication is great and has been able to answer all questions that I've asked him as well as give me tips on this. 100% worth the money I spent on it. I would take advantage of the low price.

Method:

This method I believe hasn't been sold on HF before. I have been on this forum for a very long time & haven't come across it. I have spent my fair share of money on methods I think this one is honestly a home run. If you have \$40 bucks to spend I would definitely buy this method.

(Dec 17, 2019 01:08 PM)Braymek Wrote: [\[CITE\]](#) BIG VOUCH!

I purchased this method on December 3, and since that day, I was able to start working. There are a few more requirements besides the ones stated in the original post, but I can confirm that those are the principals. If you have those, you'll be able to complete the other extra requirements. Luckily, I didn't have to complete anything. I was fully ready to start working.

This method is unique. It's incredibly easy to understand, and I'm shocked I didn't hear about this before. It is about two methods in one, but OP was very smart to combine them and make a profit from it.

You have to make small investments. You can't purchase the method having only the money to get the mentoring. On the other hand, investment is free of any risk. There's no way to explain this without knowing the method. I don't live in the USA, but I have a close friend over there. This allowed me to profit, but if I'd live over there, I'm sure I would make more.

I paid for the partnership as well, so OP is doing a lot of the work for me, as we agreed. I have to say it is a very simple and easy extra income.

OP says it is not saturable, but I do believe that if he still sells around 50 or 100 more copies, the business could start slow down. I'm a little concern about that, so I'm asking him to stop selling it after some more orders, or at least to increase the price. I hope he does since this is a goldmine.

As I said, it is very easy to understand, and, since I had all the requirements, I was able to start right away. Since I started working pretty soon, I already got some payments on my PayPal. I'll

leave some screenshots over here. I'm happy I found this thread and that I was able to know and work with Dr. Einyel.

My review came a little late due to personal issues and with the drop of the economy and whatnot. I put in about 30 minutes of real work and ended up with a \$200 profit. I can't imagine this method becoming saturated, and if you put in the work and start with the partnership, it can help you with expanding on your own and finding others.

The method itself isn't hard and is doable. To obtain \$3k of profit, you'd have to put in about 3-4 hrs of real work.

While the first part is a method that is known by some members, the second part is really what brings the money in. He offers great support and pretty much spoonfeeds you the method and literally guides you along to customers that you will be working with. This is what moneymaking ebooks/mentorship should be like, I honestly don't know why he isn't charging much more for this method.

While you won't be raking in thousands weekly like so many other sellers claim that's what makes this actually believable - there's no way you can put in only a few hours a week and end up with thousands (whitehat methods at least)

The method could be saturable if people are doing the same exact thing as you but it'd take tens or even hundreds of thousands to get close to saturation.

I suggested Einyel to sell limited copies due to this reason and that he wouldn't be able to manage everyone considering the amount of support/mentorship given.

Looking forward to making some money :)

PRE-REQUISITES

Before thinking about anything at all, make sure you have a look at the requirements which he has mentioned in the sales thread.

They are very much NEEDED and are the soul of this method.

Nothing more is required (other than the time of course)

DELIVERY OF THE METHOD

I had a ~30 min 1-to-1 Discord call with OP. He was calm and patient as both of us aren't native English speakers.

THE METHOD

Rather than telling what it is about, I shall tell you what it's not.

Gambling, eWhoring, Referrals, Social Media Services, Dropshipping, eBay, CPA, PPC, SEO

When you get to know about the method from Dr. Einyel himself, you have that AHAA moment for sure. That's what makes it unique about the method. You can look at it as combining 2 relatively-known-simple methods together so that your earning potential increases!

But I still didn't tell you what it is right.

It is... Providing services using a pretty twist.

Nothing less, nothing more.

Because OP will make you see the potential yourself and your neurons will start firing up.

Wait, did I tell you, that it is all White-hat?

TIME NEEDED

As told by OP, this is certainly not a get-rich-quick-scheme.

Users should understand that there is no such thing as free-lunch. You will definitely require to put in some work initially but one will get used to it eventually and will require less time as potential & income grows. The more time you invest, the greater income potential you have!

BEST THING

One doesn't have to negotiate with buyers/sellers. You ARE doing all this for a defined-set amount

which you will know before-hand.

EARNING POTENTIAL

You can start earning in the first week itself. And from what I have understood and made out of this, \$100-\$150/week is definitely reachable given you do put in the work. If you are from the US, you are in for so much luck because you wouldn't need to share profits with any other user.

Right now, I myself am working on the requirements needed and plan to start right away! Definitely excited.

SATURATION

The market and niche in broad is pretty huge. I doubt it will get saturated but I'd still want OP to sell fewer copies ?

WHAT DO I GET

Mentoring: He will be doing a 1-to-1 call as I mentioned before.

Partnership: Once you are a little proficient in this, OP could also offer his clientele/contacts so that we grow a little faster!

VERDICT

Definitely worth the amount. If you believe you can put in some work, please start a contract right away.

(Jun 13, 2020 09:15 AM)Internet Bully Wrote: [\[CITE\]](#) Got my first couple payments using this method.

Like mentioned, this isn't automated and you do have to put in a little time but its not hard at all. I can see how this could be pretty well scaleable to even make what hes claiming monthly, just depends on how much time you spend on it.

EDIT -

Just got finished with my chat with Dr Einzel, and I must say this method is VERY clever! OP is very smart and intuitive and this WILL definitely make you some cash if you listen to what he says and put it to work. Its SO easy and EXTREMELY simple to do. I'll be posting soon with earnings. I won't be able to add more vouches because of characters and amount of edits limitations!

This method isn't about:

- Gambling
- eWhoring
- Referrals
- Social Media selling
- Dropshipping
- eBay

-Selling on a Website
-CPA, PPC, SEO, Advertising

What am I paying for?

You'll pay for a 1 to 1 mentoring via Skype or Discord.

I decided not to make a simple eBook about this. I want to explain this step by step in person and also avoid piracy. In this mentoring, I will explain to you how this method works, and I'll help you through your first time making a profit. After that, you are on your own.

Also, for an extra payment, you could be associated with me. This means I would share with you my contacts, and that we would always be in touch during the business. You wouldn't be on your own. Once you know the method you would understand the benefit of this.

What's the price?

Discount for Hackforums members:

Mentoring: \$80 \$50 USD in BTC
Partnership: \$50 \$30 USD in BTC

You can pay for the mentoring first, and later pay for the Partnership. Partnership is NOT mandatory, it is an extra payment for a big benefit. The main product is the Mentoring and it is enough to make money. If you make the extra payment for the partnership, it means you want a business relationship with me that includes access to my contacts pool, clients and support 24/7. Payments are with BTC. I take PayPal or CashAPP only from very trusted HF users. Don't ask for PayPal if you are not an old, trusted or very known user.

Mentoring and Partnership in a single Payment: \$80 \$60 USD in BTC (Mentoring + Partnership)

Terms:

1. Every sell is FINAL. I won't under any circumstances return the money. You should ask anything you want BEFORE the payment.
2. I can't guarantee a exact profit ammount since this will depend on how much time and money you invest.
3. Mentoring will be set in a free time of mine. You are not paying for a mentoring in the next 10 minutes.
4. Prices and terms could be changed without any prior notice.
5. Leaking or sales trashing will result in the end of any kind of support.

Let me know

If you decide to work with me, you'd need to speak only with me,

If you decide to go on your own, you'd need to speak with people that are more interested than you

in helping you profit.

Is not trying to convince someone, or trying to help someone, to be able to profit.

Everyone involved are interested in having these "conversations" since it would be a win - win situation

I was able to purchase the method yesterday, with the partnership. [Dr. Einyel](#) was helpful and we hopped on a Discord call, and he was able to explain the method.

Huge vouch!

The OP is very friendly, answering all the questions patiently.

The method really works, I haven't yet implemented, but from what i learned I can 100% say it will work.

And the price is ridiculously low compared to what you get from the coaching, i would say this worth at least \$100 or more.

what do you mean by:

-A real and solid PayPal account.

I have mine, im from mexico and have a friend who is living in Texas and he has credit card and i believe by consequence a Bank Account there, regarding the point mentioned the PP account, mine was made for personal purposes basically but at the time i changed it to bussiness account which its

pretty much the same, its a verified account but i do some transactions every now and then so dont know if its that a valid point to be considered a solid paypal account.

Yin Yang - March 27, 2020, 4:59 pm

Just wanted to post here as an update to the method that I have purchased from Dr. Einyel:

He's extremely helpful with explaining the method and starting you off so you can start. This is not a quick, get rich scheme and the setup can take up to 5 days to start and get you going.

My review came a little late due to personal issues and with the drop of the economy and whatnot. I put in about 30 minutes of real work and ended up with a \$200 profit. I can't imagine this method becoming saturated, and if you put in the work and start with the partnership, it can help you with expanding on your own and finding others.

The method itself isn't hard and is doable. To obtain \$3k of profit, you'd have to put in about 3-4 hrs of real work.

Thanks [Dr. Einyel](#)

Hello, "Earn around \$500 at least, working just 2 hours a week.
Earn around \$3000 if you make an extra effort."

To earn \$500 a month like you said w 2 hrs of work, does this 2 hours of work involve talking to any one over the phone or face to face?

Purchased the method earlier today and got in a discord call with Dr. Einyel to learn.

While the first part is a method that is known by some members, the second part is really what brings the money in. He offers great support and pretty much spoonfeeds you the method and literally guides you along to customers that you will be working with. This is what moneymaking ebooks/mentorship should be like, I honestly don't know why he isn't charging much more for this method.

While you won't be raking in thousands weekly like so many other sellers claim that's what makes this actually believable - there's no way you can put in only a few hours a week and end up with thousands (whitehat methods at least)

The method could be saturable if people are doing the same exact thing as you but it'd take tens or even hundreds of thousands to get close to saturation.

I suggested Einyel to sell limited copies due to this reason and that he wouldn't be able to manage everyone considering the amount of support/mentorship given.

Looking forward to making some money :)

Bought the method and spoke to Dr. Einyel today. If you put in the work I think this method can definitely live up to the claims and earn the amounts mentioned. It is fairly simple and whitehat. The partnership is very useful too, especially if you're new to the field. Overall it is easily worth the buy imo.

It makes it a little slower, but since in any way you would need to start the method slowly so you can fully understand it, you shouldn't notice any difference.

You'd need to have PayPal. There's no need of refund. You'll make money no matter what. I would stop selling the method if it wouldn't work.

Interested to know more, can you PM me?

Gdoss - May 4, 2020, 5:22 pm

The method is pretty good, I'd say you can make around 100 dollars a week-ish, and the reason for that is there is a lot of wait time that is uncontrolled. No matter how much work you put in it will still require a wait time so this would be pretty hard to scale, I'd consider buying if you just need an extra 100\$ or less per week as the method is great and works for something like that.

As for the seller, he called and ran everything through me on the first night, and then after that, he barely responds maybe once per day, and at the beginning, most of the method relies on his responses, so not very good on his part.

An overall good method for a side hustle, if your looking for more than 100\$ a week this is probably not your cup of tea.

Np! Overall the method is actually really good, perfect for a side hustle takes barely any time at all and no effort, but don't expect to make full income like 3000\$ a month. It can be scaled more than 100\$ but that part technically isn't included so there's no guarantee, its 100% guaranteed to make 100\$ a week easily tho.

Einyel has been very helpful through this whole process, I bought this method a few weeks ago and I can say for sure that this is a consistent way of making money. He holds your hand throughout the process and is pretty much available 24/7 for questions; I can appreciate a seller who does much more than just taking your money and sending a pdf. This is one of the few methods out there that are relatively easy and can still get you some decent cash.

Big vouch!

Just wanted to give a quick vouch to this method. What really sells me on this is not only the method itself, but the explanation and advice given by Einyel. He was punctual for the mentorship, gave tips and tricks and made me perfectly understand what we will do. As stated in the thread: this is not a get rich quick scheme, you have to actually put in work, but it is completely worth it. If you are looking for some extra income to get on your free time, this is the method for you.

You make around 30% of every investment.

Sorry, are you implying if I invest 1K, I will only be able to generate 300\$ profit? Am I able to keep re-investing 1K every day for a fairly consistent 300\$ profit every day?

No. You won't invest that much in one hit. You'll invest much less, and then re-invest and re-invest. You'll make around 30% of these small investments.

It could be up to 50-80% in return of every investment, but I prefer to keep it low since I'm selling the method as an extra income with low effort and needing just minutes of your time. It can be aggressively scalable but that would be up to you. I'm not selling this as a "quit your current job"

method.

The method doesn't require voicecall.

Mentoring is via voicecall (you would need just to hear) to prevent leaks and also to be able to do a decent explanation and cover any doubt.

Seren - May 27, 2020, 7:57 pm

Ok so here's my review of this method (Haven't put it in action yet, i'll update this post as I do / post a new one)

As other reviews said, these are two "public" methods, but the genius thing is that Einyel combined them both and I'm shocked that I haven't thought about this before. It is definitely whitehat.

You can definitely make a bunch of money from this and I see it being a guaranteed % of your investment each time + maybe more. (Depending on different factors)

I don't think this is gonna get saturated any time soon unless Einyel somehow sells hundreds of copies, but even then, it'd just be harder.

Einyel was v supportive & helpful in voicecall / mentoring, partnership does help indeed, long term & short term.

The extra requirements are things that I'd assume most people have, and even if you don't, it's not that big of an issue.

So for now, I'd say method is pretty solid, will update as I learn / put it in action in the future.

NOTEThis was my first purchase on HF

I didn't know Dr. Einyel before this.

PRE-REQUISITES

Before thinking about anything at all, make sure you have a look at the requirements which he has mentioned in the sales thread.

They are very much NEEDED and are the soul of this method.

Nothing more is required (other than the time of course)

DELIVERY OF THE METHOD

I had a ~30 min 1-to-1 Discord call with OP. He was calm and patient as both of us aren't native English speakers.

THE METHOD

Rather than telling what it is about, I shall tell you what it's not.

Gambling, eWhoring, Referrals, Social Media Services, Dropshipping, eBay, CPA, PPC, SEO

When you get to know about the method from Dr. Einyel himself, you have that AHAA moment for sure. That's what makes it unique about the method. You can look at it as combining 2 relatively-known-simple methods together so that your earning potential increases!

But I still didn't tell you what it is right.

It is... Providing services using a pretty twist.

Nothing less, nothing more.

Because OP will make you see the potential yourself and your neurons will start firing up.

Wait, did I tell you, that it is all White-hat?

TIME NEEDED

As told by OP, this is certainly not a get-rich-quick-scheme.

Users should understand that there is no such thing as free-lunch. You will definitely require to put in some work initially but one will get used to it eventually and will require less time as potential & income grows. The more time you invest, the greater income potential you have!

BEST THING

One doesn't have to negotiate with buyers/sellers. You ARE doing all this for a defined-set amount which you will know before-hand.

EARNING POTENTIAL

You can start earning in the first week itself. And from what I have understood and made out of this, \$100-\$150/week is definitely reachable given you do put in the work. If you are from the US, you are in for so much luck because you wouldn't need to share profits with any other user.

Right now, I myself am working on the requirements needed and plan to start right away! Definitely excited.

SATURATION

The market and niche in broad is pretty huge. I doubt it will get saturated but I'd still want OP to sell fewer copies ?

WHAT DO I GET

Mentoring: He will be doing a 1-to-1 call as I mentioned before.

Partnership: Once you are a little proficient in this, OP could also offer his clientele/contacts so that we grow a little faster!

VERDICT

Definitely worth the amount. If you believe you can put in some work, please start a contract right away.

Internet Bully - June 13, 2020, 9:15 am

Got my first couple payments using this method.

Like mentioned, this isn't automated and you do have to put in a little time but its not hard at all. I can see how this could be pretty well scaleable to even make what hes claiming monthly, just depends on how much time you spend on it.

EDIT -

Just got finished with my chat with Dr Einyel, and I must say this method is VERY clever! OP is very smart and intuitive and this WILL definitely make you some cash if you listen to what he says and put it to work. Its SO easy and EXTREMELY simple to do. I'll be posting soon with earnings.
Thank you my friend

Dam I wish I had a connection to the US, if I can get a US bank account is that enough or is there more involvement for the us citizen?

OP is a really busy man. So consider this if you're thinking of getting the "partnership" package for that "24/7" support like I did (not that I received the access to his contacts pool as well, cause I haven't, but I paid more mostly for the support part anyway).

Well, you never told me what you're so busy with, although you did mention that you're busy each time we spoke. I get it, the work you're doing must be hard, but it's not like I'm being impatient here (or ever was, really. Whenever I needed your support I always gave you the time to respond without bugging you too much), I asked you some questions via convo almost 2 weeks ago, where I also explained that I can't reach out to you on DC anymore as I've deleted my account.

Just bought the method, part of it I was already familiar with But I never thought to combine another method with it. you def have to be in the USA to use this method. as for saturation level it's honestly 100% unsaturatable and will easily be repeatable for years. you could scale this method but I see realistically 1000-3000 USD profit per month. I honestly think this method could be sold for 99\$ so the price of 50\$ is really good

Erratic - August 27, 2020, 12:31 pm

In honest opinion I purchased this method for \$30 and it was a total waste of time.

Already knew it, method is saturated. The bonus is saturated and so easy to find out.

Asked for a refund, unable to get it. I've done the method before and got scammed by sellers. Not worth trying it. Would not recommend buying because you probably already know it. IT's garbage anyways and risky as shit.

even offers no refunds, that's even sketchier.

0/10 method

garbage

get scammed both ways not just one

This is considered sales trashing which is baneable according to marketplace rules.

1. Refund is not possible, it's clearly stated on the ToS in the OP. He decided to open a contract and send the money without reading ToS apparently.

2. Method is not risky. I've not lost not a single dolar in more than 2 years in this method.

3. This kid says it's risked because he apparently tried the method (that's what he said AFTER I revealed the method), but in a very stupid and irresponsible way. I adviced him to perform the method THE WAY I DO IT, AND THE WAY I TEACH IT, and he just don't want to.

4. Method is not saturable at all. Method takes two elements of two things that have being existing for YEARS, and that Will still exist for decades. NO WAY it is saturable in the short term.

5. Method still works PERFECTLY. I PERSONALLY check it a couple of times EVERY MONTH, before continue selling.

6. Againg: The kid DID NOT TRIED THE METHOD THE WAY I TEACH IT, IS NOT MY PROBLEM IF HE DID STUPID THINGS IN THE PAST.

7. I'm not friend with ANY OF THE 30+ VOUCHES that you can read in the previous posts IN THIS THREAD. This would be the FIRST and ONLY costumer calming such a stupid and dumbass thing.

This is SALESTRASHING and will be reported.

Yeah sure. I will paste what I posted on the Dispute this man started:

"I don't understand why this guy thinks I'd scam him with a method I've been selling for months.

This man seems like he doesn't know how to send BTC since I never got \$20. What I got was \$17 and then \$1

My best guess is that this dude doesn't know that BTC transactions has fees.

My method original price is \$60, it was \$20 for a limited time and I got \$18. That's the hole issue and this poor guy doesn't understand it seems.

"I don't understand why this guy thinks I'd scam him with a method I've been selling for months.

This man seems like he doesn't know how to send BTC since I never got \$20. What I got was \$17 and then \$1

My best guess is that this dude doesn't know that BTC transactions has fees.

My method original price is \$60, it was \$20 for a limited time and I got \$18. That's the hole issue and this poor guy doesn't understand it seems.

I'll give you some screenshots:

You're just going to outright scam him because he is new to BTC and didn't send you \$2 of a \$20 payment?

Send his money back and use a portion of it to pay the transaction fees at least.

That's so petty, unreal, what right do you think you have to just keep his money without giving him anything in return?

He is no taking just \$2. Who knows how many sells he is affecting with his sales trash? Who started the dispute when we were just chatting? You can see the screenshot. I could be losing \$100+ on sells just because of him confusing people. Did he offered to delete msgs or to change the bRate?

He made that post after you refused to refund, not before. If you're unwilling to give him what he paid for because of the transaction fees, then you have no right to just outright refuse his refund. You should have just refunded him on the spot and given him back whatever wasn't taken in transaction fees returning it. Not hold his money for over a week.

The contract was 9 days ago. He waited 9 days to make a post and a dispute. If anything what you deem as sales trashing and the negative b-rating is the result of your actions, not his. What did you expect him to do? Wait forever?

Just refund him and move on, like you should have done a week ago when you realized he's unable to understand how btc works and decided you're unwilling to give your saturated ebook out for \$2 less.

All you're showing to your customers is that you're petty, you held someone funds for 9 days without refunding them or providing them with the product over \$2. Now you're upset that he made a post in response? Are you kidding me?

Idk if you're his sister trying to defend him or you just didn't understood how things happened.

At least check the screenshots before talking stupid shit.

We were chatting on Discord. When I realized I got \$18 instead of \$20 I asked him what happened. He told me he sent \$20 and I asked him to send me the TX ID to confirm.

Are you unable to see the chat in the screenshot or you just can't read?

Next thing I knew, was that he made a Dispute and was here sales trashing. Did he told me he doesn't know how to use BTC? NO. I'm assuming that, it's not something he told me. He didn't told me any reason, he just think I'm trying to scam him for \$2???? So he decides to sales trash and affect my sells, and here you are trying to pretend I'm the one to blame. You can't be serious.

No refund. It's on the ToS. Man up and read ToS before you make a move.

PS: It's not an eBook, and it's far from being saturated. You keep demonstrating you don't know what the fuck happened, or what this thread is about, and still you decide to sales trash again on my thread, defending your girlfriend.

Fuck off. Stop the sales trash.

That btc you posted (.0009616) was worth \$19 on the 1st of this month. You denied his refund and the method for your mediocre ebook over \$1. You held his money for over a week over \$1.

He made a dispute 9 days later after you held his money without providing him with anything.

You're pathetic.

Method worths way more than \$60.

The limited deal was \$20. Never got \$20. If you want to sell your cheap bullshit for \$3 it's your problem. My shit works, and won't give it to any dumbass boy and her little friend who claimed to send 0.0012 and never did.

You can suck my balls and fuck off. Stop the sales trash.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
