Is there any chance of you getting banned do you know?

I'm also curious to know about ban rate. I see people modding all over the place.

Also, do they ban by IP or HWID? Or just the account?

Purchased a months license, great menu although you cannot safely give yourself RP until the next update ...

Tom Radford - May 3, 2020, 12:41 pm

This menu, Wow!

From my experience with top of the market Menus this is a new league.

I have made £170 with this menu in a couple of days .

This menu beats anything I have used for the price.

Amazing prices , Friendly staff and a Well coded menu .

Its got a very bright future with all the updates that are coming in.

Big thumbs up

Ben HITLER - May 4, 2020, 12:42 pm

Bought the menu, works amazingly. Has hundreds of different options and causes no lag. Vouch

facilillo - May 16, 2020, 9:28 am

imi interesting contqact with me

Nike+ - May 18, 2020, 4:44 am

Just purchased from this user and I can say this is one of the safest and most reliable mod menus for GTA 5 Online I have purchased, this menu offers plenty of ways to make your GTA Online session into a fun lobby for you and your friends or just to troll around with other players. Easy to install and had no issues using it so far.

Will post some photos soon! Ty

Jayhaze - May 19, 2020, 10:23 am

Just bought a 1 month license, will post another reply after using it.

All new discord invites accepted! The mod menu is UPDATED with new features!

BrownBag - June 10, 2020, 12:36 pm

Paid for one month of access last night on the website. Got everything worked out and it's a really user-friendly and inclusive menu. If I manage to keep myself free from banhammer and still want to

play GTA in a months time I'll surely be upgrading my license.

+1

I'm an active member of the GTA V modding community and have used at least 90% of the menus around. I'm interested in testing/using your menu.

Posting here as a reminder for when I get paid.

Note; if you would like a video review/promotion I'd be happy to take a vouch copy of 1 Year with a minimum of 10 video reposts on YouTube/Vimeo advertising your menu as well as an honest review of features, accessibility and risk of ban potential with a comparison to other menus.

Also, is your menu internal or external?

Best of luck selling your menu. :)

Kind regards,
Zulu.

Let me know your discord so we can discuss this. At the moment we have many YouTubers who are promoting our Mod Menu.

GOOD NEWS! We have rebranded the mod menu and added the feature that everyone was waiting for "MONEY ADD"!

5M money added since the ALPHA and BETA (a few weeks) testing and the account is still not banned.

We had to rebrand the project because we became too huge for the free market section and we moved to the premium market section! Find us by searching for "HEXTIC"! All Bravecheat users will automatically get a brand new Hextic license!

UPDATE! Too many people asked if the mod menu still works in my DMS, YES IT WORKS! Sorry for the late replays, too many customers are coming from different sources and it is hard to replay to everyone!!!

TasteNZ - March 22, 2021, 7:35 pm

So guttered this doesn't work for console ahaha ?

pr0sper - March 23, 2021, 3:18 pm

Purchased a while ago, used it 3 times in private lobbies by myself, got banned for 30 days with an GTA Online account reset.

Just a heads up to those looking to purchase! They seem to work to update it often but bans happen, a lot.

I think you got banned because of the other mod menu that you used. There are no other ban reports. The evidence still has not been delivered! ???

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
