Imagine being 2 weeks behind every one else later because you didn't hatch it.

Sitting with a raw egg while everyone is in battle ????

so the eggs are used to vote for an award or something ? And what if you do not use the egg? Do you just lose it or maybe it turns into the winning award etc.. ?

There is still no official thread about it. Currently we know that it's given randomly by posting. Also, make sure that your posts contain more than 100 characters for a better chance.

I guess it's more like pokemon but no one really knows yet.

If you dont use the egg you'll probably keep the award but wont be able to play the game

Good morning mate

Still nothing found ? Has anyone won an egg in the past 7 hours

I still can't feed mine i'm wondering if it's every 8 hours or so

The mind boggles to what is actually going on here

I'm not spending all day again few posts then i will chill

Throwing some luck your way mate ??

Good morning buddy,

I don't think anyone got the egg for the past 12-15 hours to be honest - but you can check that here:

<https://hackforums.net/myawards.php?awid=137>

Thanks for the luck, and you too.

Good morning mate

WoW will maybe this green one is maybe stopped and the blue one is on the scene

Well whatever the egg i want another LoL

It's a new say so a new search

Happy hunting and the best of luck

Mate you not hatched that yet LoL

Get it in the incubator i know it does look pretty but you might have something a lot better when it hatches

But you never know because you aint hatched that egg you might be excluded from winning another

Crazy times LoL

Best of luck mate ?

I suppose we are not allowed to have two at the same time. I'll have to consider hatching it most likely.?

Yeah there has to be a catch someplace when maybe you have to hatch it to give you the chance of winning another one but that's only speculation from myself

Get it hatched mate end of the day you have won an egg and it will hopefully develop into a monster LoL

Best of luck bro ?

Oh man lol I didnt even know you had to give it bytes to hatch. I guess it would still be pretty cool depending on how many bytes it takes to hatch it. I thought that you can just enter it into the drawing or whatever people are talking about. Oh and what is the deal with the three different colors? I seen a pic of three of them but I have only seen the green ones. Have you guys seen someone with a differetn color one yet ?

Yeah,

[Blazin](#) has the sapphire one:

I really like the concept, however I'm still waiting for eggs to be fully available for incubation (100%) before putting mine in.

I hope it's not just something like the green gift award that you could exchange for \$ in the hack game.

yeah I seen two ppl say they are working for second one already. so I guess you can get all you can get kind of thing. I just want to know what you have to do to get the other colors. I am betting its just like the gift award you get randomly but they changed it to eggs and added the extra stuff you can do with them. so you get a chance to win and then lower chances to win other colors as time goes on etc..

Yes that really do sucks,

I guess Omni noticed that too many eggs were obtained and the game may not be finished yet, so they wanted to slow it down to give the development more time.

Just my thought, i dont really know tho ?

So the more characters you use will higher your chance of finding an egg? How much characters did you use when you found yours?

No because eggs have been won using less characters than 100 . i have won 2 eggs 1 is in the incubator .

I use more than 100 characters just because few years ago i won a Pokemon award but because my post was LQ and not a good character count the award was taken back off me .

So that's why i'm saying better to be safe than sorry and no i don't think it helps your chances in winning an egg mate

If i remember correctly it's 100 bytes to put the egg in the incubator then you have to feed the egg and it costs 20 bytes per feed i'm sure i fed mines 2 or 3 times and can't feed it anymore .

The level progress of the egg is at 47.55%

Yea that would make sense. It's just hard to post in the marketplace so much on topic. I don't want to just shit post for a chance.

Then noone would ever get it because those forums are barely used. Unless you count the junk forum, which is used on a daily basis by staff.

In any case, I'm 100% sure this is not the case :)

Your name only stays on the award page if you don't incubate your egg have a look here

<https://hackforums.net/myawards.php?awid=137>

But what i can't understand is where is the blue egg because i'm sure Blazin has not put his in the incubator

It's just a lottery and a guessing game the now mate ?

**Psilocybe** - February 17, 2020, 10:24 am

Still trying to get my first egg, which is exactly why I'm going to make this a longer reply than usual but this feature seems to be fully/partially working now! I'm excited to get my first egg so I can throw that hoe in the incubator and get one of them sexy awards. Since Hackuman is in the game section, I wonder if there will eventually be some sort of 'evolution' aspect to it. For example, maybe 2 different eggs can be combined for a new egg, which can then either be incubated for an award or combined with another egg to further it's evolution. Would be pretty neat if this is what ended up happening. Happy hunting all!

So i don't really know what's went on in the last 24 hours lol ..

But if only 2 eggs are coming out daily it's going to be VERY difficult in winning another but i'm on guessing

If anything i would expect a blue egg out today but who knows it might be a golden one lol ?

I hit the 3 hearts got 250 bytes back hit 3 777's 4 times .. It feels bad but you just gotta think it's only 1 byte your betting and you have a chance of the dicey mate

It's a bit of a grind and sucks when 3 hearts roll in or the sevens but just think all your spending is 1 byte

When you start betting higher boom the bytes go down very quick always chasing the bigger win

Just roll 1 byte mate keep going back play the hack game and just move between them all lol

You can do it mate

Best of luck to you ?
