FAQ

How much time until my videos go viral?

Everything depends on your niche! for example, my second video managed to get over 3.2m views in a very short period of time. This guide teaches you how to have this happen, so you might get less or even more views in the start, but you will always see good results.

Is this guide blackhat?

No! YouTube is a real way to make money, so you can be proud and even make this your full time job once you make enough.

Why are you selling it for so cheap?

More money. YouTube won't saturate any time soon.

Who is Chase Namic?

Chase Namic is an online YouTube prodigy who makes over \$100,000 a month by using the steps in my guide. With his combined knowledge and my experiences, I've created this amazing guide to get started and become successful on YouTube. I also include a dedicated PDF of 30 things you should be doing on YouTube, which come directly from Chase Namic himself. It's a great help to everyone!

Is this just making compilation / fake video game videos?

No.

Can you guarantee success?

If you follow the guide and pick the right niche, I can guarantee you will be successful.
