Did this for Op, paid only about close to half of agreed price, after the job got done, he ghosted and refused to message back or pay up the rest. Such a shame. Be careful when dealing with this one.

Post the site the data was moved to.

He said to provide the images and galleries structured the same as the website. Did arrange it and never heard from him again.

Just for future reference so anyone i deal sees this, i paid him in before he even did anything in BTC, he had no rep and i still paid him, it took him five tries to get it right and he finally delivered what was asked. i don't know what he's on about here, you got your money and did the job, case closed.

You paid less than half before I started, which I appreciated. However, we agreed on \$45 and I got just over \$18. I finished it in under an hour. Hadn't worked with WordPress before and was taking longer so you said to forget about it and just send the files. Then you said to delete the small image files. No mention of that earlier even though you wanted an "exact copy" of the structure and galleries. I transferred it over again with the large image files. Then you wanted the file names changed to their titles. On the web page, the media was named differently than the titles. All of this data was in files I included; links to where the media was hosted, their titles (different from filenames), and links to the galleries they were in. Unnecessarily abrasive, ghosted, and obviously didn't pay the rest. Don't work with this guy unless you really need the cash and don't mind the risk of him ghosting with half your money.

I never finished the job, he did part of it and I paid him first for the part that I requested. I don't understand why random people are giving me neg rep when I have a perfect contract score, spend hundreds of dollars on this forum and whenever i buy i get scammed hundreds of dollars, which you can see my scam reports.
