Each is an individual design ofc

Shows promise, the Mona Lisa designs need some editing for increased quality. Try to blend the tongue & eyes in more realistically so it doesn't look like 2 google images thrown together. Since these are all T-Shirt designs, I'd recommend you fade the edges out because hard edges don't look great on clothing (In my opinion). Good luck op, feel free to share progress pictures.

Pretty basic.

I wouldn't buy any of those.

Honestly I won't buy any T-shirt with that design. It's just my choice.
