Thread: [Got 25k bytes on the 1k bytes scratchcard](#)

SIM-3587630 - February 18, 2020, 6:25 am

Got 3 times 1k bytes then I guess I got lucky, I didn't even know payouts, is this this highest paying symbol?

Yanix - February 18, 2020, 6:27 am

Pure luck..had never tried scratchcards before.

Bought 1, lost 1k, bought 2, won 1k on both, bought the fourth and won 25k (three golden cups or whatever they're called)

Herbert - February 18, 2020, 6:45 am

This post actually motivated me to try it

123 - February 18, 2020, 6:45 am

That's not the highest payout but still pretty lucky. Congratulations buddy !!

The highest payout for 1k bytes is 250,000 bytes which has 0.005%. The one you got had 0.5%.

ayyy scratchcards gang

(Feb 18, 2020 07:45 AM)123 Wrote: [\[CITE\]](#) That's not the highest payout but still pretty lucky. Congratulations buddy !!

The highest payout for 1k bytes is 250,000 bytes which has 0.005%. The one you got had 0.5%. Thanks, where did you check %? I can't find them

You can check that by clicking on trophy icon next to Scratch card price.

TheChaosKiller - February 18, 2020, 6:52 am

Jeeez, nicely done! I've only ever lost when using scratchcards on here, that's an incredible win to see. I believe you had less than 1% chance in getting that, outstanding.

I have search the scratchcard and I see this posting that's shows some percentage of winnings you might get out of scratchcards

Thanks! I was so lucky to get 0.5% rofl

A + - February 24, 2020, 3:23 am

Congrats man. I bought one for 1k, lost 1k lol.

Linux X - February 24, 2020, 4:09 am

Pure luck ... anyway good job. I don't see your bytes ...

SIM-3587630 - February 24, 2020, 4:18 am

Nice, I hope you enjoyed every byte ?

Zinx™ - February 24, 2020, 4:49 am

Wow thats nice I'm down like 20k bytes from slots

AccSeeMe - February 24, 2020, 8:14 am

wow

good job mate lucky
