Is it just me or do you really have to be a loser in life to 'threaten' Staff and Omniscient over some account? ?

< You'll just get banned over and over again

< You'll grow your account eventually, people find out and you'll be banned again

< You'll grow your account, pay for upgrades, people find out and you'll be banned again

That been said, why do you even want to be bothered making accounts over and over again when you're not welcome (anymore)?

Just move on with your life and spent your time better than trying to harass Staff and Omniscient with your complains and weak ass threats. Shame on you my man. I feel sorry for people like you.

You used the "piss" so much, I almost spilled my cup of tea. Enjoy your maple syrup then? IDGAF about you nor where you are from.

You got a poor mentality by threatening the ones that run and maintain this forum, and all you can do is cry about it? Grow up little man.
