Yeezy 350 "Cinder" Slot Checkout Service

[Yeezy 350 "Cinder"](#)

Sku: FY2903

Release Date: Mar 21st

[Yeezy Cinder Resell](#)

35\$ Per slot/pair // So you would be paying Retail+Tax+Ship+20\$

Pay after service, You don't pay me unless you get a pair.

Have had lots of success on drops while botting.

I will be running the slots on Project Destroyer and PrismAIO

Retail Price: \$220 + Shipping (Price of shipping depends on the site I check you out on.)

I will need Billing information from you, You can make a privacy card if you don't trust me with actual info.

If this goes well I will be doing more Autocheckouts for Supreme and other things in the future.

Thanks, Story/Alex

I believe he was referring in regards to your service. I have a similar question to the one above, am I guaranteed at least one pair of these shoes if I use your service?

Would so cop but I don't think this would look good in any of my fits (personal preference), but for resell if I was into it I would so try this out! Maybe in the future if theres a different drop you would do

yeezys most definitely aren't dead, Just not the best colorway. We have some big money yeezys coming in the next couple months.
