Could you PM me a list of URLs you need?

sandboxlover - February 22, 2020, 2:14 pm
You will give a crypted file with you stealer and ask ppl to run on they botnets ? What are chances for botkill ?

\$5-30 per log is starting price and negotiable for logs I am looking for. I don't understand how you can say its too little when you do not know which URLs I am targeting? I buy logs every day for years for these prices so I don't know who you deal with but genesis has logs for cheaper than what I am paying and I have \$10k+ deposited there.

Seems we found today Young Sosa has never bought logs before ??

How much do you buy logs for if more than \$30? I can sell you amazon logs for \$50 if you love to pay that? ??? ???
