Selling a web panel for automatic accounts sale. I'm the developer behind it.

It's an advanced panel, with lots of custom features:

- Dynamic Services Adding / Editing / Removal.
- Service monthly subscription-based System (Netflix 1,3,6,12 months).
- Admin Panel.
- Statistics.
- Order Management.
- User Management.
- Stock Management.
- Coinbase Commerce API for crypto payments.
- Selly API for PayPal payments.
- Captcha on important routes (secure).
- Mailing system when subscription is about to expire, on purchase, forgotten password, etc.
- ReCaptcha on important routes, CSRF token is being used to protect against XSS.
- Support Ticket system.
- Discord bot for automatically granting customer role.
- Automatic account delivery from cracking tools using API into the database.
- Beautiful and appealing UI / UX design.

Built in Laravel.

This project can be very lucrative and doesn't require a lot of time managing.

Price is negotiable, but not cheap. Crypto only.

Website looks good and it would definitely be a good investment. Id jump on it if I had the funds currently.

Mmm that's not what a CSRF token is used for.

(Feb 22, 2020 07:49 PM)Pillows Wrote: [\[CITE\]](#) Mmm that's not what a CSRF token is used for. CSRF in some cases can be used to prevent XSS attacks. While indeed "not what its used for", reflected XSS is hard to happen when all major routes are protected by CSRF tokens and within this context, XSS is more of a concern than CSRF attacks since they can be a bit harder to setup. Appreciate your response though, thanks.

Improved upon some features as well. Panel is even better now.
Let me know if you are interested, live demo is available upon request.
Thanks!

Shone - February 26, 2020, 6:36 am

Sent a PM to everyone who asked for a demo - also, I want to say that any additional features you might need can be coded and implemented into the panel.

Just looking for offers for the time being, this project given proper care could turn into a pretty

autopilot income.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP

(Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
