Yeah we'll probably put some % for winning.

The main prize you would be playing for is the award tho. Any money would be just bonus.

I took your last reply as asking if I would personally be adding my own money to the prize pool.
Which I 100% will not.

This. How the fuck can I announce a prize pool if I don't know how much buyins there are. Like I said, I am putting \$0 into the prize pool, it's going to be made up of 60-75% of the buyins, so if you want a rough estimate go on the main post and look at 60% of what has been paid towards the prize pool

So you take %40 for setup fees and 1st place walks away with more than just the award?

Im not trying to give you a hard time man, Im just saying your trying to put together a tourney without any well defined criteria behind it until after you know the participants?

It's simple if you lay it out like

2nd Place: %15 of Pot

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first

post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

was a 50minute heads up match, me vs [Zero](#) to see who would get their second .

He had a x5 chip lead to begin the heads up, I got it down to about 3:1... but when you run hot like his dumb ass, you run hot man...

gratz to [Zero](#) for winning back to back official Gambler tournaments!

Third tournament thread is now open. We will be utilizing HF blackjack !
