I was one of the few first buyers of proton. I had the professional version, but I upgraded to ultimate and Exe was kind enough to extend my usage. It's good and fud, also all exploits works well as. I've

been getting my target easily

Do not buy or do any type of business with this type, when we were making the contract always active, after I sent my payment has been disgusting, from the first moment my doubts began, I immediately pay you tell me that I should wait for your partner, and for 48HR I am waiting for him and his partner, so that they deliver me for what I pack.

This has been a total scam only stories and stories since we started the business to have been a garbage, when I paid the money the stories started, I had to wait to confirm the payment, after your partner was not to send, after the partner send my email (which is a lie), after it is updating, after your server is off, and I don't want anything anymore I want my money and it doesn't show up

What a fuckin joke...

Leads me to believe the vouch above yours is fake. Edit: yep, [Perfects](#) has been friends with Exe for years. Something tells me if you were to report [this contract](#) to Omni you'd be able to discover no transaction actually took place.

Everyone knows Exe is not a developer, kid can't code at all, yet he claims he made it then "sent the source code to his friend to finish": <https://i.imgur.com/UFFvAjT.png>

What a load of bullshit.

Exe continues to avoid announcing who the actual dev is.

I have doubts that this product actually even exists at this point with all the dicking around Exe is doing.

Exe is no longer in charge of selling this product. The developer has cut ties with Exe.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
