I say GIF with a G and anyone who says it with a J is weirdo. Thoughts?

Pancake Boat - February 26, 2020, 1:30 am

Totally agree. GIF or gtfo you weirdo.

Whenever I meet a new person I ask them if they say GIF or JIF so I know if we would get along well

Internet Gif is G. Peanut butter Gif is J. My opinion is the baseline, therefore your opinion is trash.

Geralt - February 26, 2020, 6:43 am

Yup, gif it is. Jif sounds weird as fuck.

Zero - February 26, 2020, 6:43 am

G all the way. If you say J you're wrong.

Rob - February 26, 2020, 6:45 am

GIF is with a G, there's no other way to say it.

Glare - February 27, 2020, 1:07 am

Well seeing as the G in GIF stands for graphic, why would anybody pronounce it like J? Kinda dumb

Fortunate - February 27, 2020, 1:10 am

Saying Jif is like saying FI-FI instead of WI-FI. Just fuck off.

?nxy - February 27, 2020, 1:10 am

Dude peanut butter fuck yeah

After numerous debates years ago, I pronounce it was a G rather than a J. I just remember the developer or whomever being asked what the correct pronunciation was and getting the correct answer which I have used since then.
