Thread: [Guide on How to Create Unlimited Google Cloud Trial Accounts with \\$300 credit](#)

Pebble - February 28, 2020, 3:14 am

I'm looking to sell my method on how to get unlimited Google Cloud trial accounts legally. A small investment is required, but recuperated very quickly. Due to how profitable this method can be, I'm selling it for \$600 and only selling 2 copies. I am willing to go first to extremely trusted members, and offer support the whole way through if requested.

Before the obligatory "why are you selling if it's so profitable" question, I am selling due to personally having limited time for account creation and limited time in acquiring the resources to open accounts. If you want a 100% autopilot method, this is not for you, but if you are willing to put in the time to manually make accounts (or automate it with software) then this is for you.

This is a 100% legal method if you follow my instructions.

Payment only accepted in BTC.

He says he sells it for 600\$. I would suggest you dealing with extreme caution.

You've scammed a L33T and an Ub3r and have 2 "successful contracts" with one closed account and the other with 87 posts. I suggest everyone to deal with extreme caution, especially at this price
