**\*\*ALERT\*\***

99,99% scam.

He has a panel which he allows you to make test sms and then asks money for crediting the account.

Once you send money, like I fell for it, he makes up multiple stories and eventually just ignores you.

+ He has multis lol: <https://hackforums.net/showthread.php?ti...t=bulk+sms>

seriously, why are there so many rippers from India? Giving bad name to all the honest ones out there
