Can someone make or link me a Ping Spoof hack? (1.8.9)

In minecraft I saw someone doing it, He broke 2 blocks off glass and it replaced instantly for me, but not for him, and he was actually able to go there where he broke the 2 glass blocks, while I saw him like his in 2 blocks. This hack would actually make my ping higher, I would be laggy and I could basicly go thru blocks just by breaking them
