Thread: [Is there any way to get OP in a minecraft server without being the owner?](#)

Jolmev - March 1, 2020, 11:06 pm

So, i wanted to know if there's a way to become a server operator on a minecraft server without the owner's approval, or only he/she can do that?

Thanks

(The reason doesn't matter, i just want to know if it's possible)

Used to be a method when I played back in like 2013 where you could host a fake server that would force the person connecting to run a command when they joined back onto their server, could be something that still exists I'm not too sure.

There used to be minecraft hack clients, no idea if they are still around or even work,

You could spawn shit in etc. I was pretty cool

This was possible just a few days ago :)

github.com/nerdsinspace/leaky-leaky

I remember when this was possible! It wasn't hard to convince someone to join it real quick and then get OP access on the server.

Yeah, find the owner IRL and beat him to an inch of his like and tell him if he doesn't make you OP you'll kill him.

Then suck his dick and give him a quick kiss as a thank you.

Meh idk, it's an old method but it worked for me a few times.
