Thread: [Anyone here know KMS? & Is the hacking scene dead?](#)

Ratter And Thief - March 2, 2020, 8:18 am

I want to get in touch with KMS. I don't know if he's banned from the internet or just not active anymore. He got caught and went to prison. I'll find him eventually but I just wanted to see if any of you know him/have his contact?

I used to have people to speak to that would also motivate me to hack. When ever I'd speak to KMS he'd be funny as fuck. Best hacker and best troll I've ever spoken to. It's boring now as I don't speak to anyone. The hacking scene seems kinda dead. Maybe everyone's on Discord. Or Jabber/Telegram if they're trying to be secure. But I miss things like Lizard Squad and kids threatening to DDoS. It makes me happy to see.

Jesus. Videos from 2013. I guess people have grown up since then and moved on. But I'm still around!

I'm from a different kind of scene lol but I'm here now. And I plan on staying! I just wish there were more people and interesting/fun stuff going down.

I am 24 now. Most of you are probably younger than me. And I'm not saying to you guys be hacker trolls and go to prison. I'm just saying it feels dead and boring right now.

KMS was pretty cool last when I talked to him.

I can't even remember how long ago that was, I haven't talked to him since he got in trouble. I don't have any contact with him whatsoever sadly.

Yeah I heard from someone he's banned from internet. Can't trust what this troll says though lol.

No but i can understand where you get that from, KMS actually stands for key management service. something you use when activating windows ?

story of OP's KMS ;

oh ok my bad haha

thmaist - December 16, 2023, 8:23 am

I miss him too ?

I hope he's still alive
