Thread: [Sportsbetting 90% Success Rate](#)

Physics - March 2, 2020, 2:53 pm

If I were to start a sportsbetting signals service with proof, would you be interested and at what price point?

How much for a free trial?

Weekly?

Monthly?

Yearly?

Lifetime?

I have proof of my success if needed. Let me know!

Dorrance - March 2, 2020, 2:58 pm

I would say first who proof of earnings and history of bets made.

Zoomers - March 2, 2020, 9:42 pm

Full history and not only just your winning months. Everyone knows that sportsbetting is risky, but I understand with the right person it could be lucrative, but i'll be willing to pay 50\$ for a month if it gives me good results

Why do you need to sell this if you have a 90% hit rate.

omy11 - March 2, 2020, 10:05 pm

If its a free trial then why are you asking how much for a free trial?

Geralt - March 3, 2020, 9:01 pm

If it's 90% then you can charge as much as you want. However, I don't think I or anyone else would pay a high price without seeing the full 1-month betting history + updated spreadsheet of past and current bets.

why sell something that makes u money ??

It sounds too good to be true.

Honestly if you can win 90% of your bets, why wouldn't you bet all your savings, loans etc and keep rebetting it for infinite money.

McLaren - March 5, 2020, 11:16 pm

Message me if you end up doing signals

Luca - March 5, 2020, 11:30 pm

I guess people would buy it if you show us proof of earnings.

littleswap - March 6, 2020, 9:08 am

I think \$30 a month would be enough and a fair price if your bets are really 90%

Charger - March 6, 2020, 1:12 pm

Why even waste time selling if you're really that success rate? This screams scam.

catter1 - March 7, 2020, 10:39 pm

Complete scam. This is no different than pump and dump crypto 'expert signals' groups lolol

Better show off what you've got rather than telling us that success rate you were bragging at this forum.
