Thread: [Lyft Credits @40% FAST & RIDE SAFE \(US\) \(VOUCHED\)](#)

???Berlin??? - March 4, 2020, 6:51 pm

No fancy texts! I hope you know what is LYFT (That's the reason why you opened my thread)
So I will be sending you Lyft credits to your own account fast and the easy way at 40% BTC/ETH

The credit upgrade comes in 25\$ 50\$ 75\$ & 100\$ / Get them at 40% of original price! If it's other payments like PayPal it will be extra 10% because of fees

If you are interested open up a contract and just send me your phone number associated with your LYFT account and the amount of credits you needed (only one amount at a time)
[contract=tid]Start Contract[/contract]

This works only in USA
Price may increase soon!

Firstly thanks for buying !

And if you where a gentleman you wouldn't have redeemed the next code which I accidentally send you (as you say).

I already send it first and you said its not still received so I resend them again and you got 2x 50\$ credits. So I asked for to pay for the extra credit and you refuse, and I didn mean to threatened you with that address and your name on PayPal (send me as goods and services)

That's it!

I didn't redeem anything u never sent me a code all i did was refresh the page multiple times and both credits came thru at the same time i have no clue how you do what you do but if you are using "codes" i suggest you tell people to wait a few minutes in between using codes and ask for screenshots if theres a issue im a grown man and have been on this site for over 10 years i take lyfts and ubers to work so i have no reason to scam someone who is helping saving me money

Okay thanks for letting me know! I apologise for the mistake from my side now as I send it 2 times. The thing is that I got confirmation saying you rdeemed both the credits, so if you didn redeem 1 code I would have never as for the money. Anyway it was a mistake from my side sending 2 codes so it's upto you paying me now. You can either pay to same PayPal or refuse to never pay (as you said you looking to buy more credits in future)
