Thank you for approaching me for the vouch review . Sending u the pack rn.

Snowwy - March 21, 2020, 5:47 am

I received a vouch copy of Wannacry's Ewhore Packs to review that is currently available for purchase.

This is my unbiased in-depth review of the content provided.

Note: This is a review based purely on MY thoughts on the content provided by Wannacry.

I will NOT be held accountable for any purchase issues, disagreements, refund requests etc.

Paid Pack

The paid pack that is for sale by Wannacry is a very good beginners pack to start your ewhoring

journey with. It has a good amount of items that you will need to lure clients into talking to you and a good amount of content to want them to purchase from you.

The verification photos are pretty good in this pack, with a little imagination and quick thinking, you could easily verify yourself to the clients that ask for it. The one main thing that is amazing in this pack is the verification video. It is a clear video, with voice that will easily please the client.

The photos in this pack are not limited due the quantity of photos, as there a good variety of different photos that can be used, however, I believe this pack would be best suited to users who want to sell photos and videos separately over a premium subscription, however, that's not to say this pack could only be used for one over the other. A lot of the main pictures in this pack are from the same setting, so that too could definitely work in your favour. Like everything, the more creative you are, the easier it becomes to make some serious money.

The videos in this pack would be very useful to. There are about 5 or so videos which are all different types of videos. They all last around 10 minutes or so, give or take. They are all clear and great quality videos, with all sorts of different content.

As I said earlier, I think this pack is a great start for beginners. All the content is marked and very neat in separate folders. The download is easy and can be downloaded on a PC or mobile phone. I think the price of this deal is pretty fair as you not only get this pack, but a bonus pack also. I think the content inside can definitely get you started in the ewhoring world and will provide you with enough clients to make some decent money from if you play your cards right.

My Overall Score: 8/10

Bonus Pack

As well as the paid pack, I also recieved the bonus pack the Wannacry distributes when you purchase his main pack. For a free bonus pack, the content in this pack is great. You will be able to lure in a lot of clients with this pack and this pack will also last you a very long time as there is a lot of different sorts of content in order to certainly make your clients believe that you are in fact real. This pack is once again great for beginners, but also for more experienced users who are wanting to further their ewhoring business.

This pack contains all sorts of different photos, from public outings to more private photos. There is definitely a real feel to this pack that will sell well as a premium as like I said, you have enough content that would last a very long time.

The videos in this pack are also great. There are a few different ones that can be used and all are good quality that are all fairly different. They aren't as long as the main pack Wannacry is selling, however, still great for a free bonus pack.

As I said with the other pack, the more original you are and the more ideas you think of, it will definitely pay off when using this pack. You could make some serious money with both of these packs and even if you are completely new to this field, you will have no issues in learning and making money with this pack. The download again is super easy, it can be downloaded on a PC or mobile phone and the pack is very neat, every part of the content is labelled in different folders that are very clear.

My Overall Score: 9/10

I bought this pack a few days and have been trying it out and it is amazing the chick isn't
unbelievably hot but is way more than cute enough to pass as 19 and good sugar baby material and
already made me over \$1400. The free pack is one I already had from a google search a while back
so its not the most exclusive pack but it is more than good enough to pull extra money.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
