Thread: [Happy International Women's Day 2020](#)

International Women's Day (IWD) is dedicated to celebrating women's achievements in the social, economic, cultural, and political spheres. The day, collectively founded by women, also brings attention to gender parity and women's rights.

International Women's Day began in America in 1911; today, millions of people around the globe mark March 8 as a day of action to support gender equality and human rights. This year's theme, "Each for Equal," underscores the role each of us play on a daily basis to challenge stereotypes, fight bias, and collectively create a world with more dignity and broader opportunities for all.

Happy women's day. My girl is in the hospital and I'm at home with our 2 babies and it just makes me realize even more how hard she works. This is terrible lol
