Thread: [FREE GIFTCARDS IN LESS THAN 2 MINUTES GUARANTEED](#)

cameronraygun - March 8, 2020, 7:53 am

Spoiler ([Click to View](#))Hello the all we will be abusing is called Fetch Rewards. You can find this app on IOS but i'm not sure if it's on android. Step 1: Create an account on the app. You can use my referral code when signing up to get 3,000 points (basically \$3). My code is PGCXA Step 2: go to makereceipts.com Step 3: Input real information about your local gas station. You can change the price/gal to around \$2.50-2.70. Make sure you use the real address which can be found online. For all the other information that has an example on it, input that exact example. Step 4: Once you fill in the necessary requirements click generate receipt. Step 5: Right click the image and open in new tab. This should now be your receipt that you will use on Fetch Rewards. Step 6: Fetch Rewards gives you cash back on receipt. Just simply take a picture of the receipt from your computer using a phone and scan it through the app. Step 7: You are basically done and this method can be repeated over and over so rack up those points and get the free giftcards !

how often do you do this?

jamessmith191 - November 19, 2020, 1:29 pm

Is this illegal? Let me know

VotexR2 - August 1, 2024, 11:30 am

How through it's the truth
