Thread: [Semi-automated passive earning - free method included](#)

Rad1 - March 9, 2020, 12:31 am

Hello everyone

I'm selling an ebook with methods that have guaranteed me income without the malarky that you usually expect. I've had bad experiences purchasing a few books that I believed would replace the hole in my wallet, only to have it disintegrate before my eyes. I'm not claiming that all digital strategies don't work, I just haven't found one that benefits myself in any way. And the ones that do come at a steep price. I've just put together a willing formula that I guaranteed will get you a little closer to your financial goals.

No ewhoring, gambling, Blackhat or other illegal methods - it's simple and proven.

I will give a selected amount of vouch copies to trusted members.

\$10 Paypal (Friends and Family) - \$10 BTC.

I just sent you a link.

Does this need any investment or is about gambling, ewhoring, or things like this?

If you are still offering a vouch copy I'd be happy to get one and leave a review.

It doesn't involve any of that, and I'll send you a vouch copy.

I need to explain further for better transparency. My ebook offers a method for people who have limited funds to earn without capital. The free option does require patience, though you'll eventually

make enough to process through to the other steps (depending on the reward you choose; it'll take anywhere from 3 to 14 days, even faster with referrals). If you have the capital and don't want to wait, then you can get started on step 2 (the 3rd is the bonus).

So to recap:

Free method: 3 to 14 days

Paid Method: (\$30 BTC is the minimum - \$50 is ideal; more is obviously better)

Bonus Method: For people with huge capital and want to earn a lot of money (also functions with step one and 2)

I've purchased and tried my fair share of ebooks and I've been on the unlucky side of them when comes to success. I guarantee this is the cheapest, most effective way towards succeeding. I sold [google.com/open?id=1ZHec_ISFLc6zcD6dj7jYEPyFYMEOAP8Qj101.44](https://www.google.com/open?id=1ZHec_ISFLc6zcD6dj7jYEPyFYMEOAP8Qj101.44) worth of BTC in five days (deposited another 74.96 worth of BTC).

No one left behind. Succeed or your money back (depending on the circumstances).

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I haven't found much good stuff out there that works. If you're willing to share a copy with me I'd be happy to write a review if this one is the exception :)

I'm sorry, but your account is fairly new. I need veteran Hackforum members.

I'm considering it, though I've already passed two copies to the members above us and they haven't given a review yet.
