So as my title says will give out 2 vouch copy to trusted member ,My product url :

<https://hackforums.net/showthread.php?tid=6055496>

So for getting the vouch copy you must have to be a Reputed Member in Hf, You must have be in Bustabit ,As my product is a Bustabit script ,I am searching for a Real Bustabit Gambler who will use my script and after that he'll share his result on my thread , This is not for the people who will say after receiving the vouch copy like this can work or this can get you good result etc ,I'm searching for 2 real bustabit user ,who will use my script and will share the result on my thread.I'm so much confident with my script that even i can show you by screen sharing for a certain time for proving its working or not,And the rest terms & condition would be same as my thread.Like this script requires at least 10k bits ,you cant resell or share this with anyone etc.So for getting the vouch copies first you have to show me that you had the required funds etc,Then you can start a contract with me [contract=uid]Start Contract[/contract] or contact with me i'll start a contract manually ,

Wow a true power move right here.

@mdrockstar@, keep in mind when you make a contract with the guys who are reviewing, you

gotta put thread ID of your SALES thread in the contract. Otherwise, they won't have the contracted customer tag and therefore cannot vouch on your thread.

I be on BaB everyday and have lost over \$3k so why not.

If you need someone I will gladly throw \$100 up in the air.
