Thread: [#1 Web development Service | 10 Years experience | Boost your sales](#)

Perileos - March 10, 2020, 5:27 pm

Previous work done:

<https://i.imgur.com/Xf0f3R9.png> (MyBB usergroup styling)

<https://i.imgur.com/P3mj7MC.png> (MyBB thread prefixes)

<https://hackforums.net/showthread.php?tid=6058551> (Upgrade pages, webdesign)

And a ton of work on a cracking forum I can not name here.

Feel free to talk with me about trying my services first before purchasing.

This guy is my right hand for now, tested his service today, he deserves more exposure, I vouch.

Perileos - March 14, 2020, 6:46 am

Still open for business. Please DM me.

OxaByte - March 14, 2020, 9:11 am

I vouch for @Verus, he did a mybb setup for me and helped me to built a custom mybb theme of my choice.

No offense, but all 3 projects you listed are VERY basic CSS.

MyBB thread prefixes that are padding: 6px; border-radius: 4px; color: #FFF; background: red; isn't a reputable project, the usergroup styling is literally just changing the color of text, and without being rude, the website looks like something that someone who's brand new to HTML made. Random italicized characters, no transition between color changes on hovers, no cursor: pointer on any of the "clickable" divs, etc.

I had a corrupt HDD after I came out of prison therefore, I lost all my older project and since my most recent work is on a MyBB forum which is classed as rival forum, I can't share it. The website actually has two versions, one with color fade one without. The gif is of the one without fade, as I wanted to keep it like that because everything was in that style, abrupt, straight lines etc.

I am aware of the lack of portfolio hence the last sentence about trying my service before buying.

Big vouch for this man! Offering professional services at honest prices.
He helped me a lot with a MyBB forum and other projects.

GLWS!

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I'm not very familiar with js.

And I never went to Dutch prison. ?
