Thread: [First they came for.... \(Infamous rep f'ing users\)](#)

Stork - March 11, 2020, 9:30 am

A user named BV1 representing the group "Infamous" is going around leaving negative reps to people he believe's have "supported" people that he "believes" are scammers. "Support" meaning by leaving them a positive rep regardless if you have had knowledge of the deal dispute or not.

I have no idea who this BV1 member is or how he feels justified judging who is right/wrong on this forum but I do know that he likes gang repping people so I figure hell lets give him some red boys!

Are you going to be the next "scammer" that this kid is going to convince everyone to rep fuck? Do you care that he is doing this? His group leader doesn't seem too concerned either.

However even in that dispute thread it doesn't seem like there is evidence. Still against trying to punish other users because of a scammer they may have +rep'd in the past. I am sure there are a lot of users that I have +rep'd in the past that have went onto scam and the same can be said for pretty much all users who have been on the site for awhile so you may aswell -rep everyone.

Also I don't see how is this connected to Infamous in any way, any uber can do what he is doing. Ubers have been doing exact same thing to piss off people in the old days, you seem to forgot about that.

Just playing Devil's advocate here and trying to understand Stork's view.

I understand his point of view well. My first year on HF I accumulated only positive reputation (before it was popularity) and I didn't want and negatives or neutrals. I wasn't enthusiastic when I received my first (disclaimer, I became Staff with a 100% positive rating so my first negs came from people mad at my moderator decisions in 2011, not normal member actions), but it happens and I moved on. This will be a good growing and learning moment for OP. All HF members who try to keep a "perfect" popularity score will feel this way at some point. Then you move past it and become better for it.

I understand the psychological need and image popularity or reputation brings, more = cooler and therefore, if the value gets damaged you feel attacked/pressed. But sometimes you just gotta let go about your online presence. It doesn't define whom you are in person!

For me it's more about BV1 trying to use my reputation as ransom as a way to get me to do something I wouldn't have done otherwise. I really don't care about being negative repped when it means not bowing to the mob.

Spiral it's the principle. Blackmailing people into your drama isn't okay, especially for the leader of a group. Nothing I want to be apart of.

What is "reputation system"? I have no fuckin clue what you're even talking about kiddo.

If you're talking about popularity then it makes sense. No body thought you or your friend group was popular in middle school so they gave you negative looks. Fast forward a year and now you're in highschool and on HF with the same negative popularity rating.

Quit crying.

Also;

I'm nice and bought you new shoes. Maybe it'll make you more popular

On the one hand, dudes a power abusing prick who probably jerks off to his little shitty group userbar, on the other hand, rep doesn't and shouldn't matter, and the only people who really pay attention to it are fucking idiots. Anyone can give anyone + or - rep for anything, even as stupid as BV1's excuse. More + rep = more reason to scam, seeing how its always the high repped UB3Rs who pull off these exit scams rofl. If it were up to me, rep wouldn't even be a thing. Keep the B-rating system because that actually proves something. Reputation on this forum is just a joke.

HF does not have a reputation system. We do have a popularity system, though.
